# GOSSIP OF THE STREET The bear crowd were not a happy lot after the close of business yesterday. Some of the more active members of that element of the trading contingent, who make their bread and butter in scalping operations, claimed that for several days their excursions had resulted in losses and this condition became more pronounced after the repeated drives were made against a number of the leading industries specialities. It had been averaged a ment on the foreign developments and outlook. Some bankers are of the opinion that the great part of the turmoil abroad has been discounted, while others equally well informed are apprehensive of even more unsettling happenings. Confirmation of the rumors of gold coming to this country on Russian and French account could not be had in any resposible quarter. The gold that is being imported from London represents market for gold. These importations will continue. peated drives were made against a number of the leading industries specialities.

It had been expected these raids would be effective in reaching stoporders in large volume and forcing renewed liquidation, but instead a considerable crop of underlying buying orders appeared at the low level established and all the offenges, both from the room traders and the commission houses, were easily absorbed.

As a matter of fact, the "comeback" mission houses, were easily absorbed.

As a matter of fact, the "comeback" propensity displayed by the market throughout the entire session kept the bear camp in a nervous state throughout the day. This timidity was especially marked in the final dealings, when there was, apparently, a whole-sale desertion for the propensity of the pr when there was, apparently, a whole-sale desertion from the reactionaries' ranks. Trunk Line Deficit

Trunk Line Deficit

Washington, Aug. 20.—Trunk line railroads of the United States incurred a deficit of \$15,616,328 in their June operations, according to a preliminary report issued today by the Interstate Commerce Commission. For six months of 1920, including June, the report fixed net railway operating income at \$13,664,120, against \$154,930,908 in the coresponding period of 1919.

Increased wage charges which the roads-have been obligated to pay under the recent decision of the wage board were included in a part of the mileage reported on, the commission said; but it had not been ascertained for all lines. A full report on the earnings deficit will be made after all of the back payments shall have been allowed for.

# Cheap Advice:

To Those About to Build

You know Punch's famous "Advice Those About to Marry—Don't!" Well, prophets of that sort are always ready with the same advice to those about to build. It sounds very wise and prudent,—but is it?

No business stands still. Yours is going forward or backward—which? Do you need a new building? If so, it will pay you to build it, and you will lose money if you don't.

But perhaps you are competent to do your own deciding. If so, you are just the sort of person who will appreciate the help of a competent lumber organization,—one that is always ready with large stocks on hand, able to get more quickly, accustomed to prompt action, able and willing in a pinch to do a little more than it has promised.

We deal not in advice, but in lumber. Some day you'll build. If you want the work finished on time, see that the lumber comes from LLOYD.
