Heat Your Home With Nokoi

No Ashes, Work or Worry
 Modernize your home, install a Nokoi—burn oil and
 don't worry about coal supplies.
 Ashes and coal dirt are destructive to home furnish-
 ings, are unsanitary and create much drudgery.
 Nokoi burns oil, giving a clear, white flame. Regulated
 by a thermostat it insures all the heat you need, where and
 when you want it.
 Can be installed through the ash door of any modern
 hot-water, steam or hot-air plant.
 Only change necessary is to remove the coal grate.
 Approved by National Board of Fire Underwriters.
