# **COX'S FIGURES CUT**

Data Presented in Pittsburgh Speech Shows Total of Only \$8,145,000

#### HIS "EVIDENCE" PRESENTED

Pittsburgh, Aug. 27.—Before a partisan audience, Governor Cox, Democratic presidential candidate, last night in Syria Mosque read from a typewritten list a mass of figures to support his charge that the Republican National Committee is raising a fund of \$15,000, -000 to buy the presidency of the United

More than 5000 persons, including a large sprinkling of women, listened attentively while the Democratic canlidate, basing his assertions on ocuments said to have been sent out m the Republican National Commitheadquarters, attempted to show that quotas totaling \$8,145,000 had sought from fifty-one of the larger cities in the country.

Governor Cox charged that the bankers of the country are contributing freely to the Republican fund. Their object, according to his statement, is to bring about the reneal of the Federal Reserve law, in the event of the Reublican party winning at the polls next

As he read the list of cities' reported As no read the list of cities' reported quotas. Governor Cox, coming to the \$60,000 set opposite Dayton, O., his home, interpreted: "It will take sixty times \$60,000 to carry Dayton."

The governor also predicted that he would carry Ohio.

would carry Unio.

The governor appeared in splendid health, and his quick, snappy style took the crowd with his first few words. After a few introductory remarks he said: "I am here to make a great charge against the controlled Senate. the controlled interests of the United States, who are attempting to annex the presidency of the United States. Governor Cox, in naming what he termed quick and easy money marks—for quick assets—said that Pittsburgh was asked for \$400,000. A voice from the gallery said, "Babcock gave that."
Governor Cov's data consisted almost entirely of matter taken from the offi-cial bulletin of Fred W. Upham, of Chicago, treasurer of the Republican Setiona! Committee, but his chief exhibit was a typewritten list purporting to show Republican campaig: quotas wenty-seven states, aggregating \$8 ..

Names of local subscribers, Governor Cox said, were ordered kept secret, quotas given as \$2,000,000 for \$500,000 for Philadelphia and ranging ewn to \$25,000 for smaller cities like Albany and Atlanta, were said by Governor Cox to have been announced about

The governor charged that typewritten sheets bearing the fifty-one cities' quotas were 'distributed to those assembled,' and he produced one of the alleged quota lists, but did not state how or where it was acquired. The quota plan, he said, was carried out like that of the Liberty Loan cam-

paigns.
That the reputed attempt to raise \$8.145,000 from fifty-one cities in twenty-seven of the forty-eight states is fair evidence that the total national is fair evidence that the total national fund will-be much larger, was declared by Governor Cox, who said big business men were prominent on the Republican ways and means committee and that the raising of funds was on a business "salesmanship" basis.

submit," Governor Cox added, "I think you will agree that we are justified in multiplying Mr. Upham's figures by two."

Governor Cox, standing stanchly by his charges that an attempt to purchase the presidency was being made, declared that "the senatorial oligarchy and their friends are harking back to the days of Mark Hanna," stating that in the 1896 campaign, which Mr. Hanna managed, \$16,500,000 was

Governor Cox quoted at length from many issues of the Upham "Bulletin." The first issue of July 17, the candidate said, contained this sentence:
"Nobody is going to have anything to
do with this Bulletin who has not had

in the field. A statement by Mr. Upham said that Senator Harding's election was the "job" and involved "the simplest prin-ciples of salesmanship, knowledge in our goods, faith in our goods, tact and energy in presenting our goods," Gov-

# One of these is the right oil for your car

High quality alone does not make an oil the right lubricant for your car. It must have the viscosity (type) that exactly meets the requirements of your particular engine.

Quality is merely the measure of an oil's ability to withstand heat, wear and conditions of climate and servicefactors to be met in the operation of all cars.

Viscosity, however, determines an oil's ability to function properly in a particular engine-to meet the peculiar requirements presented by the lubrication system, engine speed, type of bearings, piston-ring clearance, etc.

A high-quality oil of incorrect viscosity can damage your engine just as quickly as a poor-quality oil. You must be certain your oil is right in type as well as quality.

SUNOCO-the new scientific motor oil-has six distinct types—six different viscosities—to guarantee accurate and efficient lubrication for your car and every other car.

"The Sunoco Lubrication Guide" will tell you the right type. Ask any Sunoco dealer for a free copy or write to us.
