I saw one or two girls to whom it was very becoming. It's not the wild fluffy looking hair that we're used to, but it is held smoothly in place and it shows the shape of the head beautifully. Personally I think this new style is, much as the old, becoming to the the twenties she looks better with her "'crowning beauty" arranged on her bead and not cut off of it. I saw week and set the source of the that we're used to, but it is sheld smoothly in place and it shows the shape of the head beautifully. "M WONDERING if many of the women who are way up in Maine and other New England resorts will come racing down before Wednesday to have their names put on the assessor

By the way, how do you feel about it all? Who are you going to vote for? Won't it be wonderful when you are on a jury and have to decide whether some one is guilty or not? It's fine this voting business and high time we had the vote, but, good night. did you ever realize before that your word might be demanded to decide whether a man or woman is guilty of murder, for instance? Well, the poor dear men have had to all along, so I guess they did not like it much either. There are all sorts of possibilities out it. Think what wonderful story about it.

matter there'll be especially about the first. It won't be bad to have women criminals juried by women. It takes a very smart woman to put one over on another. Well, be that as it may, just think how far some will have to travel if they want to vote for President. They have to be here before Wednesday or send positive proof to the assessors that they live at such and such a place, or their names don't go on. And you have
