USED AUTOMOBILES

The depreciation of a good used car is, of course, less in dollars and cents than that of a new car, and as depreciation is the greatest factor of passenger mileage cost, it follows that the used car is by just so much the cheaper to run IF IT'S IN GOOD CON-DITION WHEN YOU BUY

And you cannot buy one here that isn't in good condition.

While our facilities for strictly high-grade refinishings are perhaps the most complete and largest to be found, the strain in keeping delivery promises is great; it will prove of great assistance if patrons who intend having their cars refinished will inform us at their earliest convenience. Then dates can be arranged, so that cars will not be cut of use for any length of time. We bake each coat of finish as applied; this insures longer wear and far handsomer finish. Come and see for yourself.
