ers for disposition of their stockyard interests, required under the decree recently entered in agreement with the Department of Justice, contemplate sale of such interests in fifteen cities to E. H. Prince & Co., of Boston.

The project was filed today with the Supreme Court of the District of Columbia as required by the divorce decree. It places the book value of the stock to be disposed of at between \$30,000,000 and \$40,000,000.

In an accompanying affidavit Frederick H. Prince, head of the Boston company, outlines his purpose, if the plan is approved by the court, of organizing a holding company to take over the interests in the stockyards and their supplemental railway connections.

Boston, Aug. 31.—(By A. P.)—E. H. Prince, a member of the firm of F. H. Prince Co., of this city, said today that plans for their acquisition of the stock-yard interests of the "Big Five" meat packers, as reported in dispatches from Washington today, were as yet only tentative.

"The matter is in such an early stage that little can be said about it," he added. "Development of the plans depends on many things, including the attitude at Washington and the point of view of the packers themselves."

MINER BLOWN TO BITS Caught in Premature Blast—Another Buried Under Coal

Shenandoah, Pa., Aug. 31.—Louis Ross, a miner, was literally blown to atoms this morning when he was caught

by a premature blast at Locust Mountain mine. He was thirty-five years old and leaves a widow and three children.

Joseph Billa, twenty-five years old and single, was instantly killed just as he entered William Penn mine this morning when he was buried beneath a fall of coal.

You know "it's toasted." do you know why?

LUCKY STRIKE is the toasted cigarette. Lucky Strike is the toasted pipe tobacco. And because Lucky Strike is toasted it preserves the Burley flavor for you until you smoke it.

The exact reason for this is interesting. You see, when Lucky Strike is toasted the heat closes the pores in the Burley leaves, and literally seals in the Burley flavor. It stays there for months—years—until it is released by burning in your pipe or cigarette.

Or take the method of the bee. You can put a honey-comb away for months or years and the flavor is always there—inside. This is because the bees put a thin coating of wax over the honey and seal it in, so it lasts forever.

The same with Lucky Strike. Toasting the tobacco seals in the delicious Burley flavor, to be "called for when wanted."

Overland 27.2 Miles a Gallon Atlantic to Pacific

Piloted night and day for seven and one-half days by 25 drivers who never before saw the car, a stock Overland wrote ECONOMY across the country. Over all kinds of roads for 3442 miles it averaged 27.2 miles per gallon of gasoline; 1721 miles per gallon of oil. The entire trip was made with the original tire equipment. Again, as in hundreds of great tests, Overland alloy steels and Triplex Springs made possible the record of this light-weight car.
