Scattering returns from North Louisians, received by the Shreveport Times, also showed Sanders in the lead, the Times' figures being Sanders \3966. Broussard 1858 and Caffery 1116. A partial count of the vote cast in the city of New Orleans, however, indicated that Broussard had received a plurality there.

The real trouble is that the farmers of Iowa do not like his railroad bill with its government guarantees, and they blame him for the high freight rates which have followed the return of rates which have followed the return of the railroads to private ownership. Mr. Cumpins will run far behind Senator Harding, but Iowa is so overwhelm-ingly Republican it is difficult to see how he may be beaten.

League Paramount in East Woman suffrage and the League of Nations cut a figure in the three eastern states which the Democrats think debatable, but which the Republicans claim with a great deal of confidence. The women suffragists are fighting Senator Moses, who seeks re-election in New Hampshire; Senator Brandegee, who is again a candidate in Connecticut, and Senator Wadsworth, who is up for his second term in New York. The Democrats hope that the French-Canadian vote in New Hampshire, which is said to be pro-league because of the recognition Canada gets in the Wilson covenant, will be enough to de-feat Senator Moses. Homer Cummings, former chairman of the Democratic Na-tional Committee, will be a candidate against Mr. Brandegee in Connecti-cut. The election of Moses, Brandegee and Wadsworth probably depends upon the strength of Senator Harding in their three states. The result in Maine probin the East at any rate.

While nothing definite was available as yet, estimates based on the fragmentary reports of registration officials showed that a large per cent of the estimated voting strength of the women had enrolled. The registration was far in excess of expectation of leaders of both parties, as no organized effort to bring out the women was made in many parts of the state by either party. In some districts the proportion of enrollment was ten women to one man.

first opportunity to get on the voting lists from 1 p. m. to 9 p. m. and mothers, wives, sisters and daughters of voters, and many who had no male relatives, showed their eagerness in

preparing to vote.

There were many amusing scenes, when, for instance, husband and wife joked with each other as to whom each would vote for. But, unlike Philadelphia, Camden voters had no opportunity to express their party preference. The greater part of the registration came early in the day, indicating to the politicians that the women had been looking forward a long time for a chance

to register.
The registration brought out more women than men. That was explained by the fact that virtually all men placed their names on the lists at the primary

In many of the polling places women had formed in line several minutes be-fore the clerks were ready for work. When men also were in line they dropped out politely with the remark, "Ladies first."

Atlantic City, Sept. 15.—It is estimated today that about 1000 women registered in this city. The honor of being the first woman to register in Atlantic City is claimed by Mrs. Mary

Freed, of 28 South Florida avenue, wife of Magistrate Harry Freed.

The registration of women exceeded all expectations here, the women crowding the registration booths throughout the day, particularly in the central wards of the city. In the seventh precinct of the Third ward two of the four election officers yesterday were women.

Woodbury, N. J., Sept. 15.—Election officers here were surprised yesterday to find so little opposition among the women when it came to placing their names on the list. While figures of the canvass were not all available this morning, it is believed the total will be about double that of 1919, and the same holds good all over the county, according to reports.

This city polled about 1200 votes at the last general election and about 9000 for the county, which means that if all the women vote who are entitled, or rather the same proportion of the registry list, Gloucester county will poll close to 20,000 votes in November.
