

SULLA QUESTIONE OPERAIA IN ITALIA

Giolitti Interviene per Mettere Fine al Conflitto tra Industriali e Metallurgici

Published and Distributed Under PERMIT NO. 107 of the Postoffice of Philadelphia, Pa. A. S. WELLS, Postmaster General.

Roma, 15 settembre.—Il Presidente del Consiglio dei Ministri, On. Giolitti, è intervenuto nella disputa dei metallurgici ed ha invitato i rappresentanti degli industriali e degli operai ad incontrarlo a Torino. Parecchi delegati hanno risposto all'invito.

Il partito cattolico ha domandato al Governo che nomini una commissione composta di rappresentanti di industriali ed operai alla quale dovrà essere affidata una inchiesta sulla situazione industriale in Italia. Il partito stesso ha fatto prendere torchio al Parlamento abbandonando l'idea di una

discussione generale sulla situazione e si è dedicato ad un intenso studio per una legge da essere presentata in futuro dal governo o da deputati, concernente le nuove relazioni tra industriali ed operai.

Torino, 16 settembre.—Conciliazione e moderazione è ciò che ha raccomandato l'On. Giolitti nella conferenza, ora qui in progresso tra i rappresentanti degli industriali e dei lavoratori, nella speranza che un compromesso soddisfacente per ambo le parti sia presto raggiunto nel conflitto con i metallurgici. Una parte degli industriali ha accettato l'intervento degli operai nel funzionamento degli stabilimenti e gli operai hanno chiesto che tale intervento sia esercitato per regolare gli interessi degli operai stessi.

La conferenza ha luogo nel modesto Hotel Boulogne, vicino la stazione ferroviaria, nel quale l'On. Giolitti si è sempre fermato nelle sue visite a Torino.

La circolazione degli automobili ed altri veicoli a motore è stata proibita nel distretto di Biella, uno dei centri industriali più importanti del Piemonte, e le autorità hanno dichiarato che tale provvedimento è nell'interesse dell'ordine pubblico. Il socialista Barberis ha visitato gli stabilimenti di questa città ispezionando le mitragliatrici in

possesso degli operai che li hanno occupati.

New York, 16 settembre.—John A. Fane, ex-presidente della Camera di Commercio degli Stati Uniti, è qui giunto di ritorno da una visita fatta in Italia ed ha dichiarato che le notizie per recitare un'armata di sovietici e notizie il giornale l'avrebbe assunta da un ufficiale superiore dell'esercito italiano. Si dice che uno dei capi delle organizzazioni dei sovietici sia Enrico Malatesta, il ben noto capo anarchico. L'On. Vella, un rappresentante di un

collegio della Sicilia alla Camera dei Deputati, che milita nel partito rivoluzionario, durante una intervista con un rappresentante del giornale "La Tribuna," ha negato qualsiasi connessione con le armate bolsceviche. Il Vella arroliato, durante la guerra, rifiuto di essere promosso e più tardi subì una condanna da parte del tribunale militare perche' colpevole di propaganda contro la guerra.

BRITISH MINERS TO MEET
Lukewarm Support of Proposed Strike Given as Cause
London, Sept. 16.—(By A. P.)—Indications that leaders of the miners'

federation have some misgivings relative to calling a strike on September 25 are found in the announcement that a full conference of delegates from every mining district in England will be held next Tuesday.

Isko Refrigeration
NO more messy, dripping ice with its varying, feeble cold, if you have Isko. For this compact little machine will flood your present refrigerator with keen, dry cold, automatically maintaining a temperature 10° to 15° lower than ice. Isko also makes its own ice for table use. It runs by electricity at less cost than you pay for ice.
See our Isko demonstration or send for booklet.

PIERCE-ARROW
2-ton, 3½-ton, 5-ton
Dual Valve Trucks
Mean Added Power
Increased valve area—larger intake and quicker exhaust—and complete gasoline consumption assure full power delivered by each explosion of gas.
THE result not only is power equal to any demand, but many signal economies: time-saving, easy handling, minimum strain, labor saving and surprisingly small gasoline consumption.
PIERCE-ARROW has been noted always for freedom from breakdowns and minimum repair expense. The accessibility of every part materially cuts down labor cost of necessary repairs. Keeping trucks running is an essential of successful operation and a major Pierce-Arrow objective.

THE secret of softening the beard lies in emulsifying the oil that coats the hair of the beard.
And this is what Palmolive Cream does. It removes the oil-coat quickly, so the water penetrates the stiffest beard. This makes the beard wax-like and every hair easy to cut.
You don't have to use hot towels or rub with your fingers as you have to do with the ordinary shaving cream or soap. And hot towels, as you may know, make the skin too tender.
Both lather and lotion
Palmolive cream is also a lotion. For it contains Palm and Olive oils. Thus it gives to the face a satin smoothness when shaved.
Note this also. Palmolive stays moist and foamy 10 minutes. It does not dry up on the face as does the ordinary cream. And a mere bit is ample for a shave. For Palmolive multiplies itself in lather 250 times. A cream so active, as you know, has never been heard of before. There's enough for 152 shaves in our 35c size.
