

**"Turner for Concrete"**  
In the building business permanency of organization means minimum labor cost variations—while large purchasing ability means materials at lowest prices.  
The executives handling labor and materials average 8.5 years of continuous service with Turner.

**TURNER Construction Co.**  
1713 Sansom St.

**BOILING FAT KILLS MAN**  
Other Workers in Plant Have Narrow Escape When Vat Explodes  
One man was killed and several others narrowly escaped injury in an explosion of a vat of boiling fat in the plant of the General Manufacturing Co., at Greenwich Point, yesterday.  
The victim was Edward Williams, fifty-one years old, of 1331 South Lehigh street. He was burned about the head, chest and arms and died three hours after being admitted to the Methodist Hospital.

**"INACTIVE" POLICE MAY GO ON STREET**  
Experts Advise That Special Men Be Hired for Clerical and Office Work  
**MILLS FAVORS SUGGESTION**

More than 200 city patrolmen are not engaged actively in the work for which they were hired, but will be returned to active duty on the police force if the report of Griffenhagen & Associates is adopted by Council.  
The patrolmen serve as telephone operators, chauffeurs, clerks and messengers. These jobs, says the report of the business engineers, should be filled by men picked for the work, thus releasing the patrolmen.  
"Virtually all the work done by the 'inactive' patrolmen is closely allied with police work. Some are stationed as clerks and messengers in the office of the director of public safety, some are assigned to the detective bureau in similar capacities and others operate the police bureau telephone exchange. These men should be released for duty," Superintendent Mills said today, "but the city provides no men to do the work they are performing now. We must assign patrolmen to it or leave the work undone. If the recommendations of Griffenhagen & Associates are carried out, money to do this work now done by patrolmen will be provided." Chief Clerk Gilbert has only two assistants.

**E. H. Stubb's Will Makes Widow and Sons His Beneficiaries**  
The will of Edwin H. Stubb, 48 Allen lane, who died recently at Ventnor, was entered for probate today. His estate, valued at \$60,000, is to be divided among his widow, Ada S. Stubb, and their two sons, Edwin H., Jr., and Joseph H. Stubb.  
Other wills entered for probate are: John G. Kraut, 1229 Marlborough street, \$3500, and Ira W. Staughton, 1610 West Girard street, \$3000.  
Letters of administration have been granted to the administrator of the estate of William J. Smith, \$7000.

**Married Fifty Years**  
Mr. and Mrs. Dennis Storer, 3024 D street, Kensington, celebrated their fiftieth wedding anniversary last evening with a big party at their home. Thirty-five relatives, including eleven grandchildren and three great-grandchildren, were present.

**KISSES HER CHILD; THEN SEEKS DEATH**  
Woman Jumps Into Delaware River After Violent Quarrel With Husband  
**RESCUED BY TWO MEN**

Kissing her three-year-old daughter farewell, Mrs. Annie Capaldi, twenty-three years old, of 212 De Lancey street, left the child standing on the Pine street wharf last night and jumped into the Delaware river in an attempt to end her life.  
Jacob Kobel, of 127 South Fifteenth street, heard the baby crying for her mother. He ran to the end of the wharf and saw the woman disappearing below the surface. Kobel flung off his coat and leaped into the river. Mrs. Capaldi fought off her rescuer for several minutes while a crowd watched from the shore.  
Policeman John Flynn, of the Third and De Lancey streets station, was attracted to the scene by shouts and discarding part of his uniform, he slid into the river by a rope lowered from the pier. With the aid of Kobel he managed to bring the woman to safety. Mrs. Capaldi, who seemed to be in a delirium, was taken to the Pennsylvania Hospital. Physicians say she will recover.

**GUIDE RIGHT**  
to Marine Headquarters—That's Vanderherchen's—Everything here savors of the sea. Always a good house for yachtsmen. Boat hardware. We have the kinds that stand the test.  
**F. Vanderherchen's Sons**

**Specially Featured 139.50**

The Blum Store—newly re-created—

**Seen in the Chestnut St. Shops**

We hear much of the trials of the ultimate consumer and his powerlessness to wage war on the high cost of living. Notwithstanding all this, the consumer has it in his power to demand that he receive full value for the money he spends, and in this way he can discourage the profiteer. The Chestnut Street Shops are prepared to assist in this endeavor by selling only goods of reliable quality.

**Deborah Queen**

**FROM** all accounts, that "Varsity" football team of ours means business. Preliminary scrimmages are coming along in fine style and the first game, as I noted on a schedule which I saw at the store of A. G. Spalding & Bros., 1210 Chestnut Street, is to be played September 25, Delaware being Penn's opponent. We may expect a game worth seeing, too, on October 30, when the "Varsity" team meets Pennsylvania. Equipment of the best quality is one of the things that stands behind the success of a football team, and those who know the wisdom of using correctly designed football clothing and equipment of the best quality are patrons of the store of A. G. Spalding & Bros., where quality is the first and cardinal principle.

**VACATIONISTS** returning from seashore and mountains will find many pleasant surprises awaiting them at the store of Henry R. Halliwell & Son, Broad Street below Chestnut. The original Colorado Rocky Ford Cantaloupes have arrived, and they are most delicious, and Hothouse Grapes from Belgium are here—great clusters of them, luscious and perfectly colored. French Montreal Melons and California Muscat Grapes are at their best just now, and Alligator Pears, so well liked for salads, are at the height of their season and reasonable in price. The hand-painted Gift-Baskets of Fruit are most attractive and make particularly delightful gifts for out-of-town friends. Perfect delivery is guaranteed to any point within 1000 miles of Philadelphia, and Halliwell's are making many week-end shipments of their fruits to out-of-town points.

**I** WAS looking at that large jar of pears at the store of J. Franklin Miller, 1612 Chestnut Street, which, so a card assures us, were preserved during the year of the Centennial, 1876, when some one standing beside me asked for a duplex fork. It is a convenient fork for lifting the jars out of water. All sorts of utensils for making the business of home canning as easy and efficient as possible are to be found at Miller's. Among them are preservers which hold seven jars, jelly strainers, jars, rubbers and jar wrenches. During this most bountiful of months, September, there are many fruits and vegetables to be put in jars for winter use, and it is surprising how quickly the work of canning can be done if one has the proper utensils.

**I** WAS a Jenny model of bronze duvetine that caught my eye this morning in the gown salon at The Blum Store, 1310 Chestnut Street. It was draped gracefully at the side and trimmed with bands of skunk. A model from Promet, which arrived in time for the Fall Opening, is of blue duvetine, with gold-trimmed embroidery. An accordion-pleated skirt of black satin pressed from beneath the duvetine panels. An unusual evening gown had a black satin bodice. Its skirt had bands of jet radiating from a central medallion at the waist and, in back, a panel of jet from bodice-top to hem. There are many attractive tricotines, embroidered and beaded, and a number of handsome dinner gowns included in this first autumn showing.

FAST-FADELESS

**We Invite You To see how really clean teeth shine**

All statements approved by authorities

Your teeth are coated with a film. When fresh the film is viscous—you can feel it with your tongue. Later it forms a cloudy coat. It enters crevices and stays. It dims the teeth, and now we know that it causes most tooth troubles.

There is now a way to end it. Write us today and we will send you a 10-Day Tube. Get it and see what it does for your teeth. Learn what film removal means.

**Old ways don't end it**  
Old ways of brushing do not end film. Millions of people know that. Teeth discolor and decay despite the daily care.

The reason lies in film. It clings and hides, and very few escape its damage.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing—some have grown alarming. And all because we knew no way to daily fight the film.

**A new dental era**  
Dental science has for years studied to combat film. Ways have now been found to do it. Able authorities have proved those methods by many careful tests. Now leading dentists everywhere are urging their daily use.

**Brings five effects**  
Pepsodent brings five distinct effects. All are apparent, some are quick. A few days' use will leave no doubt about them. And a little book will tell you what each one means to you.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling.

The alkalinity of the saliva is multiplied at once. This is to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

Every application brings the Pepsodent effects. Together they mean tooth protection like you never had before.

Watch these effects. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

Compare your teeth now with your teeth in ten days. Then judge this new-day method by what you see and feel and know.

**Men who smoke will see a quick, conspicuous change**  
Tobacco stains the film-coat on the teeth. So men who smoke will see a great change quickly. But millions of teeth have that same film-coat with lesser stain.

Children's teeth are most affected by the film. Young teeth seem most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. Otherwise, decay is almost certain.

Pepsodent brings to women whiter, prettier teeth. But that means cleaner teeth and safer. The luster comes from constant film removal and the high polish given to the teeth.

**Watch the change in a week**  
Send this coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. These effects mean much to you. Cut out the coupon now.
