

### N. J. POSTMASTERS TO SEEK MORE PAY

Convention Opens Today at Atlantic City—Camden Man to Speak on Magazines

Atlantic City, Sept. 17. — Technical topics aside, how to get more money for services rendered will be the paramount issue in the tenth annual convention of the New Jersey Postmasters' Association, which opens in Atlantic City today. Adolph Lankering, postmaster of Hoboken, will preside. Early arriving delegates today discussed with avid interest a rumor from Cleveland that John C. Koons, first assistant postmaster general, who is to speak here tomorrow, promised the

## The Burning Test

proves why Sunoco eliminates carbon

Place some ordinary compounded motor oil in a cup. Burn off about three-quarters. The residue is a sticky tar. When such an oil is used in your engine, this sticky residue clings to cylinder walls, piston heads, valves, etc., collects dirt and the impurities of combustion and forms carbon deposit, the greatest obstacle to efficient lubrication.

Place an equal quantity of SUNOCO—the new scientific motor oil—in a cup. Burn off about three-quarters. The oil that remains has the same lubricating qualities as the oil you started with.

Engine heat does not affect the lubricating qualities of SUNOCO because it is a straight-run, wholly distilled, non-compounded oil. It is absolutely free from carbon-forming elements.

SUNOCO is made in six distinct types to guarantee the right oil for your car and every other car. SUNOCO insures you greater power and mileage than other oils and saves you money on gasoline, oil and repairs.
