

MANY ARE INVITED TO VICTORY JUBILEE

Secretary of State and Tennessee Governor Asked to Attend Celebration Saturday

EXPECT TO CROWD SQUARE

Invitations for the suffrage jubilee in Independence Square next Saturday afternoon will be sent out today by the League of Women Voters. "We expect to crowd Independence Square," said Mrs. George A. Piersol, Philadelphia leader of the league. "Invitations will be forwarded to our 3000 members in this city. The city's official family also will be invited." Many women's organizations have joined with the league in plans for the demonstration. These include the Republican women's committee of Pennsylvania, the Women's League for Good

Government and scores of women's clubs. The Philadelphia office of the League of Women Voters, 211 Franklin Building and the Pennsylvania headquarters, 1000 Pine Building, were busy engaged today in arranging details of the celebration, which will be a "typical woman's party," according to Mrs. Piersol. Replies to invitations sent to Governor Roberts, of Tennessee, and Secretary of State Colby to attend the jubilee are anxiously awaited. The ringing of the suffrage liberty bell will be a feature of the exercises. Miss Katherine Wentworth, of Roanoke, Va., is to have the honor of tugging at the cord which will "ring out" tidings of the enfranchisement of women. The suffrage bell is of cast bronze and weighs 2000 pounds. Mayor to Preside. Notable speakers will attend the affair. Mayor Moore will preside. The ceremonies will begin at 2 o'clock. Principal addresses will be made by Governor Spruiell, Mrs. Carrie Chapman Catt, head of the National Suffrage organization which led the forces to victory; Mrs. Maud Wood Park, chairman of the National League of Women Voters, and Mrs. John O. Miller, chairman of the Pennsylvania League. Tribute will be paid to Susan B. Anthony, Dr. Anna Howard Shaw and other women who led in the fight for enfranchisement. Prominent speakers will speak of the efforts made by women leaders in the last few decades.

At the close of the outdoor exercises, Mrs. G. A. Piersol and other members of the executive board of the Philadelphia League of Women Voters will receive the newly enfranchised women in the assembly room of the Curtis building. The reception will be in the nature of a general jubilee and well wishes on the occasion of the advent of women to citizenship. Governor Spruiell has promised to attend the reception. Scores of civic organizations, both men and women, have signified their intention of sending big delegations to the Independence Square celebration. New Registration Drive. Women's organizations are starting a drive today to bring out to the polls on October 2, the last registration day, the thousands of their sex who have not yet registered. Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association, has written to Will H. Hays, chairman of the Republican National Committee, and George White, chairman of the Democratic National Committee, thanking them for their parties' efforts in behalf of suffrage, but laying emphasis on the fact that the women are not obliged to support either party. Mrs. Catt pointed out that "neither party made a perfectly clean record on ratification, but individual men of both parties have given truly heroic service to the cause of woman suffrage."

TEMPLE IS OPENED WITH BIG CLASSES

Several Changes Have Been Made in the Baptist University Faculty

GREAT RUSH OF STUDENTS

Temple University opened today with a rush of students. Although additional classrooms have been provided, adequate relief is not possible until the new home of the university is built. Enrollment showed about 10 per cent increase over last year, when the figures reached a total of 6783 students. The law, theological and eight school classes will open this evening. Several innovations marked the opening of the term. The college being undenominational, it was announced by the Rev. Russell Conwell, president of the institution, that a chaplain would be provided for students of every denomination for the coming term. An unusually large number of women

are enrolled in the law classes this year. They have formed a Portia Club and will have a special room in the college. By far the largest freshman class in its history is expected by the college of liberal arts. Dr. C. S. McGinnis, professor of physics, and Henri O. Neel, professor of romance languages, are two new faculty members. Dr. Hayim Fineman, professor of English literature, has returned. He has been away for a year engaged in survey work for the Zionist expedition to Palestine. Four times as many day students as last year and twice the number in the evening courses at that time will attend the school of Commerce. The industrial service bureau of the school guarantees to high school students in the accounting course afternoon work at not less than \$60 a month while they are studying. Many new business courses have been added. A new publication, called The Call of Commerce, has been instituted. New instructors are I. D. Shute, Miss Mary Mungrove, J. A. Toussaw, H. Lee Hunt, C. E. Bowman, A. Park North, J. T. Donnelly, John C. Kiewer, Oscar H. Hale, Herbert A. Whitten, Eugene A. Benge, James F. Haug and Edward L. Escher. The course of bachelor of science in education has been completely reorganized in the college of education with a view to offering opportunity for a proper degree of specialization in preparation for specific branches of the teaching

profession. Additions to the faculty include Miss Minna Buehling, Miss Jane K. Roth, Miss Blanche Voorhees, Miss Alberta Dent and Miss Grace Dimelow. Despite more difficult entrance requirements, registration in the law school equals that of last year. Two additions to the faculty are both alumni of Temple University. They are Virgil K. Wolf and Edwin G. Scovel. The schools of medicine, dentistry and pharmacy, at Eighteenth and Buttenworth streets, will be opened tomorrow with unusually large registrations. During the summer the laboratories have been improved. Professor George K. Schaefer is a new addition, heading the department of pharmacy.

Church Window Unveiled. A stained glass window was unveiled yesterday in the Methodist Church of the Advocate, at Wayne avenue and Queen lane. The window is the gift of Mrs. Thomas Geaves, to commemorate the memory of her husband. It was unveiled by the pastor, the Rev. J. Purman Shook, who conducted the services. The Rev. Dr. Gladstone Holm, of Frankford, a former pastor, preached the sermon.

SALES DIRECTOR WANTED

Manufacturing corporation supplying retail trade direct in all parts of the United States has an opening for a sales director of proven ability. This executive must know how to handle 20 district managers and 100 salesmen, covering 20,000 small-town and notion stores. "Sell yourself" in your letter, telling us just what you would do if you were head of our sales department now. Don't be afraid of detail. First consideration will be given candidates whose correspondence shows their ideas dovetail with our present system. No investment required. All replies will be treated in absolute confidence. Address A 215, Ledger Office.

There is no substitute for imported Pompeian Olive Oil

Birth Record Spoon

The Burning Test

proves why Sunoco eliminates carbon

Place some ordinary compounded motor oil in a cup. Burn off about three-quarters. The residue is a sticky tar. When such an oil is used in your engine, this sticky residue clings to cylinder walls, piston heads, valves, etc., collects dirt and the impurities of combustion and forms carbon deposit, the greatest obstacle to efficient lubrication.

Place an equal quantity of SUNOCO—the new scientific motor oil—in a cup. Burn off about three-quarters. The oil that remains has the same lubricating qualities as the oil you started with.

Engine heat does not affect the lubricating qualities of SUNOCO because it is a straight-run, wholly distilled, non-compounded oil. It is absolutely free from carbon-forming elements.

SUNOCO is made in six distinct types to guarantee the right oil for your car and every other car. SUNOCO insures you greater power and mileage than other oils and saves you money on gasoline, oil and repairs.
