

## MACSWINEY SLEPT WELL; IS REFRESHED

Begins Forty-first Day of Hunger Strike—Quest Slain in Dublin Hotel

## CORK FASTERS REACH LIMIT

By the Associated Press  
London, Sept. 22.—Terence MacSwiney, lord mayor of Cork, today began the forty-first day of his hunger strike at Brixton prison, there being no change from his condition yesterday, according to the report of the physician in charge of the prison to the home office. No reference was made in the report to the prisoner either accepting or refusing nourishment.

The morning bulletin issued by the Irish Self-determination League said that the lord mayor slept quite well during the night, and that, as a consequence, he was somewhat refreshed this morning. The condition of prostration which lasted throughout yesterday was said to have been somewhat relieved.

The league's midday bulletin, however, said: "The lord mayor's condition has suffered a setback. His sister Mary, who has just visited him, says he is very weak, almost as prostrate as he was yesterday."

MacSwiney yesterday completed the fortieth day of his hunger strike. Mrs. MacSwiney, who visited her husband in Brixton prison last evening, said his condition was bad. He was in great pain and had not spoken all day. He was still conscious, however.

A bulletin, issued at 10 o'clock last night, says: "The doctor, after visiting the lord mayor, said he was in a

very weak condition, and advised his relatives not to speak to him or cause him the slightest exertion."  
Miss Annie MacSwiney, the mayor's sister, relying to the statement issued by the home office Monday, says: "The home office is simply attempting to draw a red herring across the track of the real question at issue. The present protest of the lord mayor is not directed against the kind or degree of treatment meted out to him. The protest is against the act of imprisoning him. It is a declaration before the world that Ireland denies England's right to set up courts within the Irish republic, or to arrest and imprison citizens of the republic."

She further declares that the lord mayor was treated with the utmost indignity on his own official premises; his private room was raided; municipal documents were seized, and he was then "tried and condemned by alien court for having under his control the police cipher, of which he alone, as lord mayor of the city, was entitled to have control."

here were made more comfortable yesterday with a change to new mattresses and in some instances new bedsteads. Each also was provided with an oil stove. All the prisoners are reported to be very weak but conscious, with the exception of Sean Hennessy, who has been unconscious for a long time.

The length of the hunger strike has now approached the utmost limit of fasting as endured by professional fasters of various countries. The prison doctors point out that the professionals usually, as a preliminary to their protracted ordeal, go into training, fattening themselves for weeks before the beginning of their trial. In the case of these prisoners, however, none was particularly robust when the hunger strike began, several of them being even in delicate health.

No Reports of Killing Frosts  
Harrisburg, Sept. 22.—State Department of Agriculture officials yesterday declared no reports of killing frosts had been received although cool weather was generally reported from various parts of the state.

## EX-KAISER HAS FETE

Wilhelm is Central Figure of Gala Week at Doorn  
Doorn, Holland, Sept. 22.—(By A. P.)—William Hohenzollern, former German emperor, promised to be the central of the gala week which began yesterday in this city and in Amerongen, which for more than a year was the home of the former monarch. He has given 1000 guilders to the committee in charge of the national orange celebration at Amerongen, where the streets have been decorated with the proceeds of his gift.

These linax of the celebration will be the formal turning over by William to the president of the Order of the Knights of St. John of a hospital at Amerongen, which was built and furnished by the emperor as a memento of his stay there. This will be followed in a few days by the wedding of Elizabeth von Bentinck, daughter of Count von Bentinck, who was William's host at Amerongen.

**R**EGARDLESS of whether or not you wear glasses "safety first" suggests that you have your eyes examined periodically—just as you go to your dentist at regular intervals to prevent decay of your teeth gaining headway.

Surely your eyes are equally as important and should be guarded with even greater care, because slight is far easier lost than regained.

Consult an oculist—he is the only one qualified, both medically and optically, to prescribe the proper treatment for all conditions which may need correcting.

If glasses are necessary, have the prescription filled by a prescription optician.

**Digging for Captain Kidd's Treasure on Cooper's Point**

Local legend has it that Captain Kidd selected Cooper's Point on the Delaware as a cache for some of his treasure. And for many years this particular spot was a favorite quest for those easy believers who sought a quick road to fortune.

Digging for ill-gotten gains usually has only the reward of its own pains. At the base of every fortune we find the foundation stone not of spasmodic and poorly directed effort but of Thrift.

Opening a bank account is the beginning of most men's successes. But systematic saving is the only kind that pays. Spasmodic thrift gets nowhere because what is saved during economical streaks is spent during periods of extravagance.
