When you ask for oil, say "ATLANTIC"

Your motor troubles may be the result of your asking for just "oil."

But when you ask for Atlantic, these motor troubles are going to be reduced to a minimum.

When you use Atlantic, you are lessening the danger of putting a knock in the motor. You will secure better compression and more power.

You are going to reduce the chances of scoring the cylinders or burning out the bearings.

You'll seldom need to worry about loose wrist pins or connecting rods. You'll be less likely to have overheated cylinders.

Ask for Atlantic. Don't take a chance on any oil that's handed to you. You don't take a chance when you want gasoline. You ask for Atlantic then. All the more reason why you should ask for Atlantic when you want oil.

Atlantic will keep your motor in good condition longer. It will reduce your repair bills to almost nothing. Because Atlantic really lubricates and stands up under the most severe conditions.

The next time you need oil, say
