Here is a new handbag which shows all signs of being a rival of the beaded bag this season. It has rings around the top and a draw cord, instead of the usual clasp. And, you know, it wouldn't be hard to make. With some tricolette or even heavy silk, a few beads, some rings, a silk cord, your needle and a bit of skill you would have it done in no time. The same can be said of the dainty collar and cuff set with its three rows of lace set on the edge of plain white net. Both of these articles would make nice Christmas gifts

Money-Making and Man-Making

Two Minutes of Optimism By HERMAN J. STICH

To Stand Still Is to Be Crowded Out

THE gigantic liner Leviathan, which carried to Europe more American soldiers L than any other ship, and which brought home more American boys than any other vessel in the war-time maritime service, now, because she has lain idle for just a little over a year, has sunk into junk at her Hoboken dock. A little over a year ago the monster Leviathan was a magnificent, plunging, incomparable creation of human ingenuity and energy.

Today, because for thirteen months she has not done any work, her condition is hourly getting more serious, her plates are becoming more rusty, her engines more and more helpless and useless, she is sinking deeper and deeper into

has simply rusted into incapacity.

The price of premiership is activity and progress.

. The boat that does not sail, the athlete who ceases exercising his muscles, the man who is too lazy to keep mentally alert-all are in precisely the same position-all stale and fail to stand out?

When one of Napoleon's marshals rushed up to him during a battle and exclaimed : "Sire, we have taken a battery !" he was peremptorily ordered to "Take another !" Napoleon always went on.

A city that is finished has already begun to decay. The man who stops stagnates, deteriorates and, so far as progress is conerned, dies.

You may fall down-don't lie down.

It is a long way from failure to success, but if you rest on your cars you will quickly discover it is a very short way from success to failure. Quit looking around-look forward.

When a man gets to the point where he believes he is a finished producthe ought to set himself aside, wear a label reading "Construction Account Closed," and join the Slow Suicide Club.

Hold your ground and keep pushing hard.

To stand still is to be crowded out.
