

### UNITE RESOURCES, HARDING ADVISES

Nominee Urges Knitting Together of Industrial and Agricultural Interests

**WANTS ADULTS EDUCATED**

By the Associated Press  
West Jefferson, O., Oct. 2.—Advocate of an agricultural and industrial union to co-ordinate American resources for the common good, Senator Harding declared in a speech at a Republican rally here today that "one public rally for one" must be the motto of individuals if effort in the nation is to achieve its full potentialities.

"I want to see American life so knit together," he said, "and every American appreciative of the fact that the welfare of his fellow in his own weaver that we will go forward to a united and humane pattern of united Americanism."

Making a particular appeal for betterment of the condition of the farmer, the nominee asserted that agricultural production is of greater interest to those who live in cities than to the farmers themselves. As a part of the same community of interest, he said, transportation facilities must be developed and a rehabilitated railway system supplemented by inland waterway development and by commercial use of motortrucks to carry freight.

**Interwoven Prosperity**  
"We are beginning to learn," he continued, "that we are not only in name and in desire a united people, but that we are so in fact, and I point to the relationship of our cities to our rural population and of both to our American railways as an example of our interwoven prosperity. It is impossible to pull one of the threads of that great fabric without starting the unraveling of the prosperity of all of us."

The senator reiterated his belief that farmers should be given the right of co-operative marketing, should be encouraged through the federal farm loan system to own the farms they live on, should be assured a stable transportation system and a stable labor supply and should be given protection against unfair competition from abroad.

He also advocated a higher standard of rural education and a higher standard of farm social welfare, and declared that profiteering "must be squeezed out."

Discussing in detail the problem of rural education, Mr. Harding took occasion to speak a word for the education of adults in current events, and asserted that such a movement would constitute "the true bulwark against extreme radicalism."

**Education Has Fallen Short**  
"We must see to it," he said, "that we immediately raise the standards of rural education. We have just awakened to the fact that the education of the American child everywhere has fallen below the standard necessary for the protection of our future. We have had to face the fact that our school teachers are underpaid. We have had to face the fact that in physical training and in the teaching of American history and the principles of Americanism and Americanization, we have been deplorably deficient."

"But nowhere, I think, is there more cause for alarm than in the fact that the annual school term of the rural school in the United States only averages 127 days a year. We must have no bureaucracy of the federal government in education, but we owe it to the childhood of the nation to place at its disposal the utmost in educational facilities."

"It is my belief that the conception of adult education will develop in America. Education of the adult, which teaches the facts of current life at home and abroad, will be the true bulwark against extreme radicalism and will be the basis of an intelligent, free and tolerant thought."

**BOLD BANDITS GET CAKES**  
"Peter Pan" Robbers Ignore Cash in Delicatessen Store  
Now comes the "Peter Pan" bandit, or rather three of them.

Three men who "never grew up," or at least never forgot how they used to "twirl" ginger cookies from their mothers' pantries, entered the delicatessen store of Mrs. Annie Bayer, 1911 West Lehigh avenue.

Mrs. Bayer is not certain whether they pointed a revolver or a nickel-plated wrench at her, but when she backed to the wall the intruders, ignoring the cash drawer, snatched three big cakes and fled.

The great cake robbery occurred at 11 o'clock yesterday morning, and was made public today by the police.

### POLES TO SUBMIT ANSWER

Reply to Soviet Peace Terms Has Been Received  
Riga, Oct. 2.—(By A. P.)—Polish delegates to the peace conference here were prepared today to submit the Polish answer to peace terms of the Russian Soviet Government. It was understood this answer had been received from Prince Sapieha, Polish foreign minister.

Adolph Joffe, chief of the Soviet delegation, and M. Dombki, head of the Polish mission, conferred for two hours at Black Head House last night.

Moscow, Oct. 2.—(By A. P.)—There is a general feeling of pessimism here regarding the outcome of the peace negotiations at Riga between the Poles and the Bolsheviks. The workers, however, seemingly are standing solidly behind the Soviet Government despite the universal desire for peace.

With winter approaching, the situation of the prisoners of war awaiting repatriation is becoming more difficult. Officials say the government is doing everything possible to facilitate their evacuation, establishing evacuation centers in Moscow, Petrograd, Samara and Ekaterinodar and co-operating with the German, Austrian and Czechoslovak missions, but provisions, clothing and medicine and means of transportation are needed.

### JAPAN GETS OIL RIGHTS

Britain Also Gains Control of Certain Mexican Fields  
Mexico City, Oct. 2.—(By A. P.)—Control of the petroleum industry in Lower California has been secured by the British Government and Japan dominates the same industry in the state of Sonora, according to reports printed in newspapers here, which combine official and unofficial statements.

The Department of Industry and Commerce announces that Alfred Mackenzie, a British subject, has been granted a three-year concession to explore and exploit all oil lands in Lower California on government and private land included between Santo Tomas and Punta De Canoas. It is unofficially declared the British Government is backing Mackenzie.

A similar concession has been granted a Mexican subject to operate the same kind of concession in Sonora, the territory extending about twenty-four miles in length and being situated in the Altar district. A Japanese corporation, with Japan government funds, is being the concessionaire, it is said unofficially.

### PROFITEERS FIGHT LEAGUE, SAYS COX

Declares Article XXIII Prevents Exploitation of Humanity in Sweatshops  
**ENDING WESTERN INVASION**

By the Associated Press  
Joplin, Mo., Oct. 2.—In speeches at Miami, Okla., and at Joplin today, Governor Cox discussed the humanitarian provisions of the League of Nations, asserting that the "profiteers of peace" are opposed to it because it prevents them from "exploitation of humanity in sweatshops and insanitary factories."

The governor said: "Under Article XXIII the members of the league agree to maintain fair and just conditions of labor for men, women and children; to co-operate in prevention of communicable, contagious and vocational diseases; to prohibit exploitation of women and children, and to control the traffic in opium and other dangerous drugs."

### JESSE D. MYERS DIES

Was National Secretary of Fraternal Mystic Circle  
Jesse D. Myers died Thursday evening at his home, 4639 Sanson street, Mr. Myers had been national secretary of the Fraternal Mystic Circle, whose headquarters are in this city, for twenty years.

He was forty-four years of age, and is survived by his wife and son.

ploration of women and children, and to control the traffic in opium and other dangerous drugs.

"As you will find the munitions profiteer is opposed to the league because it provides for disarmament, making future wars impossible, so he cannot coin dollars out of blood, so you will find the profiteer of peace opposed to the league because of Article XXIII, which prevents him from exploitation of humanity in sweatshops and insanitary factories. He will not admit this as his reason, but probably will join in general clamor against Article X."

Governor Cox asserted it must be a great satisfaction to the women of America to know they were recognized on equality with men in holding league positions "months before they were granted the right of suffrage in our own country."

Governor Cox's western tour will end at Kansas City tonight.
