

SUNSEAL SUNNYCORN

The Instant-Cooked Breakfast Cereal

A delightful treat for the whole family—a new, mellow, creamy flavor that all will enjoy.

Not corn flakes, but the heart of the choicest white corn, finely ground and thoroughly cooked in a patented milling process. Made only from that part of the kernel which, before it is dried, is the pure, rich milk of the corn.

Cooks thoroughly in a minute. Simply add salt and stir into boiling water and immediately you have a delicious breakfast food, ready to serve!

Don't cook Sunnycorn over two minutes!

Sunnycorn is most wholesome as well as tasty—try a package, and if it is not entirely satisfactory, return what is left, and your grocer will refund your money.

Your grocer has Sunnycorn, or can get it at once.

SUNSEAL Delicious Foods

Sunnycorn
The Instant-Cooked Breakfast Cereal.
