According to William Dick, secretary of the Board of Education, the \$240,000, though not then in hand, was "budgeted away for the general purposes of the board" in the beginning of the year. Herry T. Stoddart, a member of the funnce committee, also said the \$240,000 "does not exist." Miss Margaret Maguire, supervising principal of the McCall School and publicity director of the Allied Teachers' Council, expressed a similar opinion. Miss Maguire attacked the Women's Teachers' Organization for its "attempt to inject politics into the fight for higher nay."

TEACHERS' MONEY | TEACHERS' LETTER

Legislator Hopes Women's Organization Merely 'Sinned Through Ignorance'

A letter sent by the Women Teachers' Organization to candidates for the state Legislature asking them to state their position on the Finegan salary bill for school teachers to come before the Legislature at the opening of their next session in January has aroused infiguration among many of the teachers of the city and unfavorable comment from members of the Legislature. James Franklin, a member of the

Legislature, characterized the letter as the work of overzealous and badly ad-

vised leaders.

'I have been a member of the Legis-lature since ISSO and never in all that time have I seen such a misleading and mean document from educational people

as the letter sent under the letterhead of the Women Teachers' Organization of the Women Teachers' Organization to each of our members.

"They say that Doctor Finegan will present a salary bill. He cannot present one; he can merely prepare it. There is a threat in the leter that might be regarded more seriously if I did not believe that the senders were sinning through ignorance.

"They want the members of the Leg-

"They want the members of the Leg-islature to commit themselves to something that, to us, is not as yet in exist ence. Such an action on our part would be against our legislative onth, which requires that we shall take office without having promised anything. I am very much surprised to have received such a letter and hope that the senders will be better advised next time."

Miss Jane Allen, president of the Women Teachers' Organization, said that there was no intention of injecting callities into the salary campaign, but polities into the salary campaign, but that an honest effort was simply being made to ascertain the kind of men that

made to ascertain the kind of men that would be sent of the next Legislature.

"I am sorry that such a matter should have come up at this time, when the teachers are about to be united on the salary question. We shall have a meeting tonight, when I believe all the differences that ferences that now exist among the teachers on the salary question will be

patched up.

"The plan submitted by the citizens' committee. I believe, will give us all what we want. If the board sees its way clear to adopt this plan I don't be-lieve they will have any trouble with the teachers."
