JAPAN PLANS FOR LEAGUE

Summary of special cuble dispatches to today's Public Ledger Coorright, 1920, by the Public Ledger Co.

London, Octe 7.—The Liberal offentive against the Lloyd George government is in full swing. Since Viscount Orey launched the attack by his letter on Ireland to the Westminster Gazette of the bare have been three distinct additions. on Ireland to the Westminster Gazette there have been three distinct additional mores against the cabinet, and today for the first time in months it looks as if the opposition to the present government's policy toward Ireland were

Poland Wins Its Demands

Riga, Oct. 7.—Poland attains, under the preliminary understanding reached by M. Joffe and M. Dombski Tuesday, practically everything for which its dele-gation has been contending. The agreement amounts in its essence to a com-plete diplomatic capitulation by the Soviet, which accepts in toto the frontier line proposed by Poland, surrenders 150,000 square kilometers (60,-000 square miles of territory) beyond Curzon line, grants a broad corridor reaching to the Dvina river, in the north, giving Poland contact with Letvia and, cutting communications between Lithuania and Russin, and concedes in principle virtually all the conditions contained in the Polish elevery.

SHERROD SMITH Brooklyn southpaw, who started against Cleveland in the third game of the big series

Betting Is Brisker

Following Brooklyn's victory in the second game, the betting became much brisker. The fans unleashed their dollars and showed a greatly increased desire to "have a little something down on the outcome." This was due in great measure to the fact that the Dodgers had been able to take the measure of one of the star pitchers of the American state a ments.

League—Jim Baghy. Bagby had been regarded pretty much as a bugaboo by Brooklyn supporters but his downfall gave the enthusiasts renewed hope.

Whereas Cleveland had been a 5 to favorite in the betting prior to yester-day's games the odds in Wall street inmediately dropped after the Robins' victory. The quotations were the same as they had been before the start of the as they had been before the start of the series when the Indians had ben made a 5 to 6 choice. As was the case before the first game, the Brooklyn supporters tried to get 7 to 5 last night, but when they found that this was impossible ex-cept in rare cases, there was greater willingness to take 3 to 5 than has been evinced at any time since it became ap-parent that the Brooklyn club would be nitted against Cleveland in the battle for premier baseball honors.

While there was a preponderance of

Brooklyn money, the Dodger fans steadfastly refused to give any odds on today's game. It was impossible to get any necurate line on just how much was wagered in Wall street following yesterday's game, but it was estimated by qualified authorities that the total ran well up into five figures. One care still identified with the red shirt, and ran well up into five figures. One com-missioner remarked: "It is beginning to seem more like a real world series only body of men who toilet water and than it did. I never saw money so talcum power have not transformed into tight as it was during the first two a lot of sisters." won a game Dodger money began to show in wads."

The odds along Broadway last night were slightly different from those quoted in Wall street during the late afternoon. The prevailing price on Broadway was 11 to 10 against Brooklyn and 8 to 10 against Cleveland, with even money quoted on today's game.

Why Teeth Glisten

after dental cleaning-Why they soon grow dim

All statements approved by authorities

Your teeth glisten for awhile after a dental cleaning. Then they soon grow dim. The reason lies in film. That is what makes teeth dingy. Your dentist removes it, but your tooth brush leaves much of

it intact.

Now there's a way to daily combat film. Millions of people employ it. Shining teeth seen everywhere show how much it means. This is to urge that you try it and see what it means to you.

You must fight film

That viscous coat you feel on teeth is film. It clings to teeth, enters crevices and stays. The tooth brush does not end it used in ordinary ways. So, in the months between your dental cleanings, it may do ceaseless damage.

It more than dims teeth-it destroys them. Most tooth troubles are now traced to film. And, despite the tooth brush, those tooth troubles have been constantly increasing.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. And that is alarmingly common.

Science finds ways

Dental science has for years sought ways to fight that film. Proper tooth protection was impossible without it. This world-wide research has resulted in efficient methods, now at your command.

Years of careful tests have proved them. Authorities endorse them. Leading dentists everywhere advise them.

The methods are combined now in a dentifrice called Pepsodent. Millions already employ it, largely by dental advice. To those who do not know it yet we send a test tube free.

See and feel it act

One needs no scientific knowledge to realize Pepsodent effects. The results are quick and apparent. Every application repeats the benefits it brings.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva, to digest starch deposits that cling. The alkalinity of the saliva is multiplied also, to neutralize the acids which cause tooth

Two factors directly attack the film. One of them keeps the teeth so highly polished that film cannot easily adhere.

The film-coats are day-by-day fought as they never were before.

You'll be repaid

This ten-day test will well repay you. Not in whiter teeth alone, but in cleaner, safer teeth.

You will know how clean teeth look and feel. And how children's teeth can be protected as they have not been before.

Send the coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the fixed film disappears.

Watch the several effects from every application. The book we send will tell the reasons for them. You will quickly know that Pepsodent brings a new era in teeth cleaning. Cut out the coupon now,
