

A MULTITUDE OF INTERESTING BOOKS OF ALL KINDS

History of Time Telling
The first time-telling device, according to Harry C. Brearley, was a moving shadow cast by a rock or a tree or a stick on a horizontal surface.

THREE PAGES OF MANUSCRIPT WRITTEN BY SHAKESPEARE

Some Experts Believe That the Great Dramatist Collaborated in the Production of Munday's "Sir Thomas More"

By FELIX E. SCHELLING
Professor of English Literature in the University of Pennsylvania
One of the most interesting manuscripts, however, of the general class, now in the British Museum, contains, among several others, a page called "Sir Thomas More" which is believed to be largely, if not wholly, the work of one Anthony Munday, a well-known lesser writer contemporary with Shakespeare.

UNTIL the discovery in the records' office in London by Professor Wallace, an American, of a sixth signature a few years ago, attention to his position in a lawsuit, there had been only five unquestioned signatures of Shakespeare extant. Three of them were in the handwriting of the dramatist, preserved in locked cases at Somerset House, London.

THE havoc which time has wrought among the dramatic manuscripts of Shakespeare is such that only some 3000 separate dramas, scarcely one-sixth preserved in print, it is not surprising to learn that there are scarcely a score extant authentically in the handwriting of the author.

A Substitute Husband

Somebody once wrote a story called "My Official Wife," which had considerable vogue. Max McCann has called his new novel "Mollie's Substitute Husband," and has made of it a story which ought to appeal to a large circle of readers who wish something unusual.

Gardens and Other Things

Without doing violence to his conscience the American critic can agree with the verdict of the London Bookman of F. Frankfort Moore's "A Garden of Peace." It is "a most agreeable book." Mr. Moore has written a description of his garden at Yardley Parva, but he has done more than that.
