STEINWAY PIANOS

The Best Piano

How familiar this claim! Zealous salesmen apply it to almost every piano; yet no other except Steinway have the right to such a claim. It is the discovery of a great truth in common place expression. The best materials that go into a piano; prepared in the best way over months and years of seasoning and refining; brought to the exclusive Steinway standards by the best workmen in the craft of piano-building; produced under the personal supervision of the best creative talent known to the trade; sold everywhere by leading dealers—the best known in this line for helpful experience and fine service equipment—that is Steinway.

Read the book, "Steinways of Today," and you will understand why Steinway methods and results are always the best.

Steinway pianos may be bought on monthly payments
