## The CAPTIVE CAP

Clings to the Kolynos Container

Gone forever is the day of the "mussy" tube, due to the truant cap which runs away and hides.

This Captive Cap, used exclusively on Kolynos, overcomes any possibility of the loss of the cap—a frequent happening with children and not uncommon with grown-ups.

Its appeal, as an added refinement, has been instant, everywhere.

The Captive Cap makes the Kolynos tube ideal for the traveler, for the man who must save time and temper, and is a sure cure for absent-mindedness.

### KOLYNOS

with the patented Captive Cap is presented to the public without increase of price. It has been the policy of the Kolynos Company, always, to give the best possible service regardless of expense, and this applies to the container as well as its contents.
