

GIRL KILLED ON WAY TO BROTHER'S WEDDING

Companion Also Meets Death at Grade Crossing, Delaying Ceremony an Hour

New York, Oct. 21.—While her brother was waiting with his bride-to-be at Rumson, N. J., little Margaret Castler, eight years old, and Albert Morris, thirty-five, who were in an automobile party hurrying to attend the wedding, were instantly killed yesterday afternoon. The car in which they were riding was struck by a swiftly moving express train from New York at the Belford, N. J., crossing. In the automobile, in addition to Morris and the child, were Mr. and Mrs. Charles Castler, Richard Castler, twenty-five; Mrs. Harvey Johnson, sixty; Mrs. Albert Morris, thirty. All

lived at Belford, and were going to Rumson to attend the wedding of Orville Castler and Miss Valeria Crosby. News of the accident reached the home of the bride-to-be just a few minutes before the wedding ceremony was to have taken place. About a hundred guests had gathered. After a postponement of one hour the couple were married.

"Shop with Comfort out of the Congested District"

FRITZ & LARUE, Inc.

Since our disastrous fire on July 21st we have assembled a stock of Oriental Rugs from reserves in bond, and new direct shipments from Tabriz, Sultanabad, Kerman and Hamadan, Persia—the source of supply of Keshan, Saruk, Kerman, Serape, Mahal and Antique Persians of all classes—thereby eliminating all intermediate expenses ordinarily incurred by importations through intermediate sources, enabling us to save from 25% to 50% on the initial cost—this advantage is passed on to you. These purchases made over a year ago total upward of

\$1,000,000 in Value

This is by far the largest and finest stock of Oriental Rugs shown in this city, not excepting our own stocks of previous years, which have always been considered to be the largest and best in the city. These rugs are priced at fair market values in plain figures on each ticket and from which prices

We will deduct at the time of sale a discount ranging **from 25% to 50%**

Which brings the net value to the lowest point in years and one unequaled elsewhere, enabling our storage customers to make replacements on the lowest basis of cost.

We build on a fixed fee—not on percentage

WHEN Goethals, Wells manages construction, the relationship is professional. Our compensation is a fee, fixed in advance by contract. Our interest is identical with yours.

Lump sum contracts and the cost-plus basis have obvious disadvantages. We prefer to act strictly as technical agents for the owners.

After creating the engineering and architectural designs and plans, we either (a) employ the contractors for each class of work, or (b) organize a construction force, paid by the owners and directed by us, or (c) combine these methods.

It is manifestly to our advantage as well as yours to complete the job rapidly, at the least cost, and without deviation from plans and specifications. While relieving you of all detail, we work in the closest confidence with you.

Our fee will usually be lower than the aggregate of fees otherwise paid for technical services from several unrelated agencies.

We shall be glad to be consulted about projects of any character, from a small factory to large public works.

The parent corporation, George W. Goethals & Co., Inc., is available to undertake the management of a new enterprise, or to reinforce the existing management until it is established and operating effectively. It also makes examinations and reports upon all kinds of industrial and commercial enterprises.
