# **BANKERS URGED** TO AID FARMERS

Should Help to Estabish Cooperative Warehouses, Says Hirsch

AGAINST M'FADDEN BILL

By the Associated Press

Washington, Oct. 21.-Bankers can and should aid farmers by assisting in the establishment of co-operative warebousing and selling organizations. Chairman Joseph Hirsch, of the Agri cultural Commission of the American Bankers' Association, declared today in presenting the report of the commis tion to the convention.

Many of us have been fearful entering the field of marketing because in doing this we have been afraid we would come in conflict with our own customers, the middlemen, who are buying the farmers' product." the report said. "But it is high time for the bankers of the country to realize that more economical method of distributing our food products is absolutely essen tial to the success of American agricul ture; that unless farmers can produce be an increasing tide of men drifting from the farms to the cities.

McFadden Bill Adversely Reported A special committee appointed by the proposing a tax on gold used in industry and the arts, to be paid in turn to the mining companies to stimulate produc-tion, submitted a report vigorously opposing the measure as an attack on a basic element of the gold standard." The committee contended that gold miners were only one of the many in-

dustrial sufferers from the war and might well look forward to a return of an industrial situation which would more than compensate for their present stringency. Representative McFadden, author of

the bill, defended it, declaring that the latter's addition of new gold to the nation's reserve would assist deflation and stimu-late a healthy return to normal. He delate a healthy return to normal. He de-clared the average cost of raw materials in all industries during the war period had increased 112 per cent, while the users of gold in the industries continued had increased 112 per cent, while the users of gold in the industries continued to obtain their raw material at the pre-war price fixed by the government. This, said Mr. McFadden, made gold unique in that it was the only material which was prevented by the government from being affected by the natural law of and demand.

Mr. McFadden denied the committee contention that the proposed bill was a blow at the gold standard, maintain-ing that its enactment would be accepted abroad as evidence of the deter-mination of the United States to strengthen its gold reserve.

A motion that Mr. McFadden's rethe reports of the convention was The convention then adopted a motion that the entire question be referred to the economic policy com-

Defer Fight on Check Collection

Final action by the association on the controversy over charges for the collecting of checks was deferred again and an expected bitter fight avoided The question of par clearance was re-ferred back to the special committee, which has had it under consideration for more than a year.

The state banks section adopted rese-

handling of checks without charge for collection and opponents and proponents of the Reserve board's par clear-ance plan are prepared to fight when the report of the special committee was made. Leaders of the opposition were

can hope to exert the fullest influence in the affairs of the nation, Joseph H. DeFrees, president of the Chamber of Commerce of the United States, declared in an address.

The time has now arrived when many The time has now arrived when many mistakes must be corrected if the United States is to return to its previous financial stability and prosperity. Sol Wexler, of J. S. Bache & Co. of New York, told the association.

Francisco; vice president, Thomas B. McAdams, vice president of the Merchants' National Banks, Richmond, Va.; second vice president, John P. Puelicher, vice president of the Marshall & Hsley Bank, Milwaukee,

### MOSCOW REVOLT "HUMBUG"

H. G. Wells Finds Order Coupled With Hunger and Want

London, Oct. 21 .- (By A. P.) - Conditions in Petrograd were summarized in one phrase; 'Hunger and want, but order," by H. G. Wells, the British author, when he arrived here last night from Russia. He implied that similar conditions prevnil throughout Russia. In a conversation with a representative of the Daily Mirror Mr. Wells said he had a chat with Premier Lenine and went about freely without a guide, in Petrograd and Moscow, as well as other

places.

He said he was able to see and judge things for himself, but declined to give any general conclusions because his observations are not as yet digested. He declared he had been amused when he had been amused when he read of disturbances and insurrections in Russia, adding: "All that is just humbug."

Daughter Is Married as Mother Dies Altoona, Oct. 20.—Half an hour after Mrs. John C. Ivory, wife of a contractor, died today her daughter. Miss Madeline, was married to Ralph C. Stoltz in St Leo's Catholic Church. The wedding party was just leaving the house when death occurred. It was Mrs. Ivory's wish that her illness should not interfere with the wedding

MACKEY AT FRANKLIN CLUB Harry A. Muckey, chairman of the Workmen's Compensation Board of Bennsylvania, addressed the Ben Frank in Club at its meeting last night in the Bellevic-Stratford. He explained the theory behind the workmen's compensation act, saying that 'It has been the real woof and warp of our intrial revolution such as the world never seen."

Lawyer Testifying Before N. Y Legislative Committee Withholds Records

DECLARED IN CONTEMPT band's

By the Associated Press New York, Oct. 21 .- Senator Lock ood, chairman of the joint legislative ommittee investigating the alleged building materials trust, today de clared John T. Hettrick, a lawyer testiying before the committee, in contempt.

This followed the refusal of Hettrick to produce records relating to the vol ume of business done by master plumbers, stone cutters and heat and ventilating contractors through his office.

Samuel Untermyer, at the stormy pening of the investigation yesterday. had produced index cards which he asserted represented secret membership in "an unlawful scheme to throttle competition." Hettrick was directed today to produce the key to these numbered cards.

When Hettrick declined to produce his records on advice of counsel, on the ground that they related to correspondence between an attorney and his clients, Mr. Untermyer said: "It is the nost preposterous pretext I have ever

heard.

Chairman Lockwood declared Hettrick in contempt after giving him five minutes in which to make reply to Untermyer's questions. Hettrick consulted a lawyer by telephone and announced his final refusal to answer.

Hettrick admitted under cross-examination that his activities had been in ination that his activities had been in vestigated by agents of the Department of Justice and examined by the United

States district attorney.

Mr. Untermyer questioned the wit-London, Oct. 21.—A motion made in ness about an alteration job at a public school, producing a green index card with notations which Hettrick recog-"That card." Hettrick said. "was

heated debate, which was finally shut off by a vote of 346 to 75.

## To Gas Consumers:

The experience of the last two months has proved conclusively that the Gas Service in Philadelphia under the New Standard is just as good as under the old. The troubles complained of by our consumers during this period have been largely due to dirt in the burners and appliances. These troubles have been handled to the entire satisfaction of our consumers, by a thorough cleaning out of the burners and appliances. We want the gas consumers of Philadelphia to know that we are continuing to do this work FREE OF CHARGE. If you have any trouble with your gas, telephone our nearest office and it will be promptly remedied WITHOUT COST TO YOU.

A 10-Day Tube of Pepsodent. Send coupon. Make this simple, pleasant home test. See for yourself the results.

# We Invite You

# To see how really clean teeth shine

Your teeth are coated with a film. When fresh the film is viscous-you can feel it with your tongue. Later it forms a cloudy coat. It enters crevices and stays. It dims the teeth, and now we know that it causes most tooth troubles.

There is now a way to end it. Write us today and we will send you a 10-Day Tube. Get it and see what it does for your teeth. Learn what film removal

### Old ways don't end it

Old ways of brushing do not end film. Millions of people know that. Teeth discolor and decay despite the daily care.

The reason lies in film. It clings and hides, and very few escape its damage. It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It

holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyor-

rhea. All these troubles have been constantly increasing - some have grown alarming. And all because we knew no way to daily fight the film.

### A new dental era

Dental science has for years studied to combat film. Ways have now been found to do it. Able authorities have proved those methods by many careful tests. Now leading dentists everywhere are urging their daily use.

The New-Day Dentifrice

A scientific film combatant, acting in new ways. Approved by the highest authorities and advised

by leading dentists everywhere. Druggists supply

the large tubes.

These methods have been combined in a dentifrice called Pepsodent. Millions of people have come to employ it. You can see the results wherever you look - in glistening teeth, in teeth you envy, maybe.

A new dental era has begun, due to these discoveries. And these are benefits everyone should share. So you are urged to let this 10-Day Tube show what Pepsodent can do.

### Brings five effects

Pepsodent brings five distinct effects. All are apparent, some are quick. A few days' use will leave no doubt about them. And a little book will tell you what each one means to you.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied at once. This is to neutralize the acids

which cause tooth decay. Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere. Every application brings the Pepsodent

effects. Together they mean tooth protection like you never had before. Watch these effects. Note how clean the teeth feel after using. Mark the ab-

sence of the viscous film. See how teeth whiten as the film-coat disappears. Compare your teeth now with your teeth in ten days. Then judge this newday method by what you see and feel and lesser stain. Children's teeth are most affected by the film. Young teeth seem most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. Otherwise, decay is almost certain.

Men who smoke

will see a quick, conspicuous

change

Tobacco stains the film-coat on the

teeth. So men who smoke will see a

great change quickly. But millions of

teeth have that same film-coat with a

Pepsodent brings to women whitef, prettier teeth. But that means cleaner teeth and safer. The luster comes from constant film removal and the high polish given to the teeth.
