

AVORABLE comment by casual visitors to an institutional building is often merely a tribute to pleasing architecture. But when those who are responsible for the success of the school, hospital, clubhouse, academy, church or similar structure express enthusiasm, a deeper chord has been struck.

The Catholic Girls' High School of Philadelphia is one of the handsomest schools in the city and also one of the most practical in arrangement. Ballinger & Perrot were the architects. Bishop P. R. McDevitt testifies

that we "displayed a deep and conscientious

attention to every detail of construction from the beginning until the completion of the

building." Being engineers as well as archi-

tects, we are quite as much interested in the

utility purposes of a structure as we are in

We shall be glad to consult with you.

the design-and vice versa.
