

# EXPLORERS TO FLY OVER ANTARCTIC

## British Expedition Will Use Airplanes and Wireless in Polar Region

### PARTY SAILS TOMORROW

New York, Oct. 28.—John L. Cook, late commander of the British expedition, and veteran Antarctic explorer, will sail from this port tomorrow on the most ambitious polar expedition ever undertaken. With three oil burning ships, a flock of airplanes capable of crossing the ice on sledges if need be, dogs from the Hudson Bay country and wireless on the planes and at land stations to be established, he and his English companions purpose to circumnavigate and explore the Antarctic continent.

Their object is not attainment of the South Pole, although they may reach it. It is purely commercial and scientific. They expect to find new seas for whaling, to open new sources of mineral wealth and to promote the establishment within the Antarctic Circle of meteorological stations whose reports will have a bearing on crop conditions throughout the world.

The first of the big ships, the Thor I, is now anchored here. Another is on its way from Cardiff to the Falkland Islands. The members of the first party, in addition to Commander Cook, are Captain George Wilkins, second in command, who spent three years in the Antarctic with Stefansson and who is a photographer and surveyor; N. C. Lester, R. N., navigator, and Thomas W. Hagsbaw, geologist. A fifth member will join at Montevideo, where Wilkins and three dogs—Canadian huskies—will be waiting when the Thor I, with Cook and his friends, get there.

Commander Cook said today that the party would go from Montevideo to the Falkland Islands, where a scientific work there proceed to Deception Island, just outside the Antarctic Circle. There the whole process of whaling will be filmed for motion pictures.

### 1500 Miles on Sledges

Leaving the Thor I, at Deception Island the explorers will go to Hope Bay, in Graham's Land, where the dogs will be harnessed and the party will sledge along the west coast of Waddell sea as far as it can get, hoping to reach Coats Land on the eastern side. If it makes this objective and returns to Hope Bay as planned, it will have sledged 1500 miles, 1200 of them over unknown ground.

Unlike previous expeditions it will erect no huts, but will depend upon snow houses and tents for shelter. Another innovation will be the continuous sledging. Heretofore explorers at the southern end of the world have rested at some base during the four months of antarctic night. The Cook party expect to keep in motion throughout this period of darkness.

There is now building in Southampton a special ship, which will be finished and manned in 1922. It will carry several airplanes especially built for flying under Polar conditions. These airplanes will be used constantly in making surveys.

Wireless stations will be established at a number of places and the use of the radio is expected to make the progress of the party comparatively safe.

### POLICE CHIEF SUMMONED

U. S. Jury at Chicago Wants Testimony on Liquor Ring

Chicago, Oct. 28.—(By A. P.)—John J. Garrity, chief of police, was called before the federal grand jury investigating the liquor ring today to tell what he knows about alleged corruption of the police department. Garrity was subpoenaed yesterday following his refusal to surrender affidavits gathered in his investigation of the charges.

The papers were turned over to the district attorney's office today.

Wanted 2531  
At less than you are getting  
Corrugated Container Corp.  
ALBERT A. LIGHT, Donkita Bldg.

# PROBERS GOING TO HAITI

## Naval Court of Inquiry Will Start for Island Next Week

Washington, Oct. 28.—(By A. P.)—The naval court investigating American occupation of Haiti was in session only a few minutes today and adjourned until Monday without hearing witnesses.

Major Jesse P. Dyer, judge advocate of the court, said it was probable that no more witnesses would be heard before the court left next week for Haiti to continue the inquiry. Meanwhile a list of witnesses to be heard in Haiti is being prepared. The names of most of these appear in the records of Haitian affairs now on file at the Navy Department here.

Major Dyer said he had contemplated calling as a witness the Rev. L. Tom Evans, a Baptist missionary, who in an address here charged improper acts to the American marines stationed in the island, but that Mr. Evans had said he had no personal knowledge of the incidents referred to. However, the missionary has agreed to furnish a list of persons in Haiti who had supplied him information concerning American administration there and Major Dyer said these persons would be examined by the court in Haiti.

### WON'T CLOSE COTTON GINS

South Carolina Governor Refuses Request of American Association

Columbia, S. C., Oct. 28.—(By A. P.)—Governor Cooper today refused to issue a proclamation calling on cotton ginners to suspend operations until the price of cotton advances. Request for the issuance of such a proclamation was made yesterday by the South Carolina branch of the American Cotton Association, which pointed out that such a proclamation had been issued by Governor Parker, of Louisiana.

Governor Cooper said he was informed that many farmers opposed closing of the gins and also that he had no more authority to bring about the suspension of ginning than he had to appeal for the closing of stores and other industries.

The cotton men at their meeting yesterday adopted a resolution asking President Wilson to replace David E. Houston as secretary of agriculture with William G. McAdoo.

### Two Badly Injured in Auto Mishap

Sharon, Pa., Oct. 28.—(By A. P.)—Rabbi Isadore E. Philo, of Youngstown, Ohio, formerly of Akron, Ohio, and Bert Printz, of Sharon, were badly injured when an automobile they occupied overturned at New Wilmington, Pa., last night, when they were en route from New Castle to Sharon. Rabbi Philo was to have been the principal speaker at a Roosevelt memorial meeting here last evening.

# DANZIG QUESTION SENT TO GENEVA

## League Council Adjourns After Referring Dispute With Poland to Assembly

### ORDERS A PLEBISCITE

By the Associated Press  
Brussels, Oct. 28.—The council of the League of Nations this morning closed its sessions in Brussels. Final adjournment followed action referring the question of Danzig, the regulations concerning which are in dispute between Poland and the authorities of the free city, to the assembly of the league which is to meet at Geneva next month.

The council took other important action in deciding upon a plebiscite as to the disposition of the territory in dispute between Poland and Lithuania, this including the line fixed by the Supreme Council in December, 1919.

A. J. Balfour, the British representative, in making the closing address declared that four great powers not now members of the league would enter it shortly.

"Without these great powers," he added, "it is impossible to predict what the league may accomplish."

Washington, Oct. 28.—(By A. P.)—GREAT BRITAIN has submitted to the League of Nations for registration and publication sixteen international agreements entered into by her since the

# MAURER STIRS VETERANS

## Members of Reading Post Refuse to Parade With Him

Reading, Pa., Oct. 28.—James M. Maurer, Socialist, and former assemblyman, figures in a dispute which threatens to end down the participation of Reading veterans in a bonus parade to be held here on Armistice Day, November 11. The parade was originated by the local post of the Rank and File Veterans, a Socialist organization, which has elected Maurer an honorary member.

The members of Gregg Post of the American Legion say they will not parade with Maurer, a committee of the post issuing a statement saying: "Maurer stayed at home and tried to hinder the successful progress of the war. He was bitterly opposed to everything the soldiers did during the war and we cannot support him now."

## Girl Who Asked for \$15,000,000 as Mexican's Widow Will Be Bride

New York, Oct. 28.—Consuelo Carreras de Arce, who calls herself the widow of the late Rafael de Arce, Mexican "mine-owner," who died last June, leaving an estate valued at more than \$15,000,000, soon will be married to Thomas D. Armour, amateur golf champion of France. Mrs. de Arce was denied the right to sue for her share of the millionaire's estate on the ground that there was no marriage. Mr. Armour, who came to this coun-

try in quest of the amateur golf championship of America, met Mrs. de Arce at New London last summer. Mrs. de Arce filed a protest in the Surrogate's Court a year ago last September, asserting that she had lived with the millionaire more than a year as his wife. She said their common-law marriage took place April 10, 1918, and that de Arce publicly acknowledged and introduced her as his wife.

Carlisle's Community Chest Growth  
Carlisle, Pa., Oct. 28.—Carlisle's community chest, striving to get \$30,000 for local philanthropy in a five-day campaign, reports after a day and a half's work total subscriptions exceed \$22,000. The workers' divisions are in charge of Mrs. R. S. Hays, Mrs. Harriet H. Helm, Harry F. Rinesmith and Dr. C. S. Basehor.

## What Dual Valves Do In Pierce-Arrow Trucks

THE Dual Valve principle is the greatest advance in trucks since the Worm Gear was introduced in 1910 by Pierce-Arrow. It means a surpassing performance—vast power and surprising economies.

### They Save Road Time

More power and more speed mean avoiding road delays, doing more work, making more trips. The pulling power is equal to any demand. Hills and rough going have no terrors.

### They Save Operating Costs

Increased valve area means a fuller, purer gas mixture. Fired by two sparks, all of the charge is converted into power. This means a big saving in gasoline—more miles per gallon.

### They Save Shop Time

Sturdiness keeps Pierce-Arrow out of the shop. The ready accessibility of its parts permits repairs to be made when necessary, in the least time and saves big labor charges.

THREE TRUCK SIZES:  
2-ton, 3½-ton and 5-ton—and a tractor—all electric lighted, worm driven, and equipped with Dual Valve engines.

48 of the FIRST FIFTY trucks still running after 9 years' service.
