Y/E believe in shoes that fit the feet — instead of making the feet fit them. That's why we recommend Educators—the shoes that "let the feet grow as they should." For Educators can never cause corns, bunions, callouses, ingrowing nails, fallen arches, etc.

Don't think that, just because Educators are broad-toed, they cannot be as attractive and goodlooking as other shoes. For

they are-good-looking and conservative, too. They wear long, besides.

Let us show you Educators. Bring baby in, too-we have Educators especially made for little feet just beginning to toddle around.
