

SEQUESTRO DI UN VAPORE ITALIANO

Navi da Guerra Inglesi Trovano un Carico Diretto ai Soviet Russi

Published and Distributed Under PERMIT NO. 841. Authorized by the Act of October 3, 1917, on file at the Postoffice at Philadelphia, Pa.

Londra, 29 ottobre.—Navi da guerra inglesi hanno accompagnato a Batumi il vapore italiano "Acena" diretto a Nevrosiak con un carico per la Russia Soviet, cio' secondo un dispaccio giunto da Mosca al Daily Herald. L'incidente e' ritenuto come una grave violazione alle leggi internazionali.

giacche' presentemente i porti del Mar Nero non sono soggetti a blocco.

Roma, 28 ottobre.—La stampa continua ad occuparsi delle imminenti trattative tra l'Italia e la Jugoslavia per raggiungere un accordo sulla questione Adriatica e molti giornali rilevano il contrasto che si verifica tra le due tendenze, quella nazionalista e quella rinunciataria, relativamente a Fiume ed alla Dalmazia.

Il "Giornale d'Italia" aspramente commenta il fatto che il Governo italiano sia proclive alla cessione della Dalmazia alla Jugoslavia, accentrandosi della dichiarazione d'indipendenza per Zara. Il giornale afferma che l'ammiraglio Millo, nei colloqui che ha avuto con l'on. Giolitti e gli altri membri del Gabinetto, si e' pronunciato avverso ad una tale soluzione e sembra che l'abbia definita una grave errore.

Il giornale "L'Ida Nazionale", organo dei nazionalisti, sostiene il suo programma massimo riguardo la questione Adriatica ed ammonisce il Governo a non tradire i diritti e gli interessi del Paese, come ha fatto in Albania con la rinuncia di Valona. Al riguardo fa rilevare che anche il Presidente Wil-

BRITISH SEIZE ITALIAN SHIP

Cargo Destined for Soviet Russia Captured in Black Sea

Londra, Oct. 29.—(By A. P.)—British warships have seized and taken to Batumi the Italian steamship Ancona, bound for Nevrosiak with a cargo for Soviet Russia, says a Moscow dispatch to the Daily Herald.

It is contended that this action is a gross violation of international law, there being no blockade of Black sea ports at present.

BLUEBEARD SENTENCED

Lacking Proof of Murders, Goes to Paris Jail for Swindling

Paris, Oct. 28.—Judgment was rendered today convicting Henri Landru on the charge of swindling and of being a habitual criminal, and he was sentenced to four years' imprisonment and subsequent deportation.

EARTHQUAKE IN CHILE

Towns Seriously Shaken by Shock. No One Injured

Valparaiso, Oct. 29.—(By A. P.)—Violent earthquake shocks, with vertical movement, yesterday shook the provinces of Atacama and Coquimbo north of this city, the tremors lasting two and one-half minutes. The cities of Copiapo and Valparaiso, in the province of Atacama, were seriously shaken, and structures in both towns being damaged.

Reports received here state no one was injured.

Nobel Prizes to Belgian and Dane

Stockholm, Oct. 29.—(By A. P.)—Dr. Jules Bordet, of Brussels, and Prof. August Krogh, of Copenhagen, respectively, have been awarded the Nobel prizes in medical science for the years of 1919 and 1920.

Do you know what The Steele Idea is and does?

What is known as The Steele Idea of Industrial Construction rests upon two fundamental principles:

First. That a manufacturing plant can yield the greatest production most economically ONLY if it is planned by men who have been schooled in the science of plant production as well as plant construction; who have especially prepared themselves to build YOUR plant by studying your particular processes and methods; and who, equipped with this knowledge, are competent to devise and scheme a plant arrangement that will fit YOUR PARTICULAR NEEDS with exactness and precision.

The second principle of The Steele Idea is that a manufacturing plant should be constructed and equipped BY THE ORGANIZATION WHICH PLANS IT. Not only can one organization work with closer co-operation, clearer understanding, greater convenience and therefore fuller efficiency than two or more separate organizations, but RESPONSIBILITY CANNOT BE SHIFTED OR EVADED, and the owner of the plant can be PROTECTED BY ONE CONTRACT COVERING THE ENTIRE PLANT and its equipment.

We have been industrial constructors 56 years and learned early in our career that a factory badly planned is better unbuild. We then began the upbuilding of an organization of specialists capable of planning and designing industrial plants of the utmost efficiency, and of carrying out these plans and guaranteeing them down to the last detail of mechanical equipment.

Under The Steele Idea, our organization has produced hundreds of factories of all types in many lines of industry, comprising practically every important line in America.

Fifty per cent of our business today comes to us unsolicited, through the recommendation of clients whom we have served satisfactorily. The other fifty per cent results from our ability to prove in advance and without obligation the dollars-and-cents value of The Steele Idea of Industrial Construction. We are at your service. A letter or phone call will bring a representative.
