Save Coal and Money with a Heating Stove

An oil, gas or electric heating stove will give immediate concentrated heat when and where you want it. When it is necessary only to take the chill off the room in the morning or evening, think what a saving this is over that of running the furnace fire. You can save on your coal bill in this way practically every day until the severe weather arrives. The cost of fuel for these heaters is about 2 cents per hour.

Prices range from \$3.50 to \$38.

Headquarters also for Gas Ranges, Refrigerators, Kitchen Cabinets and Gas Water Heaters—all approved makes.

Gas Heaters
Quality Solaris—(2 types, replace and portable.)
Lawson Odorless—(Compact, unique and powerful.)
Lawson and Quality Reflectors—(cheerful, copper lined.)

Oil Heaters
Barler Ideal—(Lasts a lifetime the best oil heater made.)
Elgin—(Has Miller burner.)
Alhambra—(patent oil fount, never over-heat.)

Enjoy the convenience of an "All Gas" kitchen. We install cool tank heater in basement, furnishing hot water and also heating kitchen radiator. Estimates gladly furnished.
