Low upkeep, when costs are high, is one of the reasons for Premier's popularity. Other points are: mechanical perfection, beauty of design as well as operation; and finally the car as a whole representing a quality-value equalled by few and surpassed by none.

It is always safe to rely on the judgment of the experienced.

A Ford Inclosed with a Close-Tite

WHY HAVE A CLOSE-TITE?

Because you can close your car instantly against all weather conditions.

Because it attaches to your car in a natural common sense manner and without any alterations to your car.

Because it is mechanically right and will always work perfectly, is absolutely noiseless.

Because by reason of its being made of steel it will strengthen your top.

Because your Ford can be changed from an open car to a closed car instantly, and without moving from your seat.

Because the curtains are controlled by use of pressed steel guides, in which they slide up and down.

Because it only adds 37½ pounds to your car yet adds strength.

Because it is within reach of the most modest purse.
