# A Timely Thanksgiving Sale of China and Glass

**The Norwegian Captain Says It Is Not Wise to Take Many Chances**

in shallow waters or narrow channels, especially in hazy weather.

Just off to the left near Newport News is one of the big war steamships that has keeled over on her side and taken fire. The little tug beside her is just arriving with a score of men for her relief.

To take even one chance is one too many for anybody, but especially for credulous and all-believing women, either in buying properties or investing money in shares of stock. Buy only of people of established reputation who could not afford to mislead you.

**Splendid Fur Wraps**

Imagine, for instance, a wrap of very fine dark mink, with skins so skillfully worked that they drape as softly as velvet. It has a deep, shawl collar, and a border nine skins deep, both of mink, and its price is \$3300.

A wrap of Alaska seal is entirely simple, being cut with straight lines and just enough fullness in the back to make a graceful ripple. This is \$1800.

A lovely mole wrap is a double cape with deep collar and bands of squirrel dyed the odd color brown known as elephant's breath. This is \$1200.

A broad-tail Persian lamb wrap has lynx collar and cuffs, and a black brocade lining. Price, \$1500.

A straight wrap of Hudson seal (dye muskrat) has sleeves that are mere cuffs, and a dull blue lining. Price, \$975.

**One Man's Search for the Finest Velour Hat**

He came into the Men's Hat Store the other day and admired the fine imported velour hats, but said, "I'll look around first. I want the best velour hat I can get in this town."

He looked around—and came back.

"I saw them all," he said, "and at the last store I asked if the hats they showed me were the best velour hats made. 'Well, no,' they said, 'the imported velour hats are best but you'll have a hard time finding one.'"

So he bought one of our imported velour hats for \$18.
