The formation of this club is the state of the club plan to get a clubhouse where members may entertain their family and friends. An effort will be made to enroll as members all persons from Mount Carmel who reside in this city. The formation of this club is largely due to the efforts of Bernard McGovern, who was elected president. Other officers elected were Charles Raudenbush, vice president; William Hobart, ,.....

PIPE COVERING considered in terms of

TOUR hot air furnace pipe is probably not covered at all, or is covered only with a single layer of thin asbestos paper.

In either case enough heat escapes from your furnace (into your basement, where excess heat is not needed)to waste from one to three tons of your coal

By applying Carey Asbestair pipe covering over your thinly covered pipes you will stop the waste of that precious coal.

You keep your rooms warmer than you have ever had them before on less coal because no heat is lost between the furnace and your living rooms.

The money you save on coal the first year will pay for installing Asbestair and you save two or three tons of coal every year thereafter.

We shall be very glad to have you consult us about your coal saving. Our advice and estimates will cost you nothing.

Nashville, Tenn., Nov. 5.—(By A. P.)—Returns received by the Nashville Banner today from the Fourth Congressional district where Representative Hull, Democrat, is having a close race with W. F. Clonse, Republican, still indicate the re-election of Hull. With Morgan and Fentress counties missing. Hull has a lead of 2603 votes. The Nashville Tennessean reports that Fentress has given 1100 majority for Clouse, and that Morgan county was carried by Clouse by 700 to 800 votes. This would give Hull a lead of 700 to 800 votes.

Tax Problems That the New Administration Must Face

Of vital concern to every one of us, because indissolubly linked with the high cost of living, is the problem of tax revision that confronts the new Administration at Washington. "There is no question that Federal taxation is a burning issue the country over," declares the Philadelphia Public Ledger (Ind. Rep.), which adds that "if the country is to be saved from the inequalities of the present taxation, which is both sectional and too arbitrary in its class distinctions, it must be through the combined common sense of both parties, and not through any doctrinaire adherence to partisan systems."

During the fiscal year 1920 Federal taxes amounted to \$5,408,075,468, an increase of a billion and a half over 1919. And since the cost of running the Government next year will be at least \$4,000,000,000, according to the estimates of Secretary of the Treasury Houston, the problem for the present is to devise a better, not a smaller, tax.

The leading article in THE LITERARY DIGEST this week, November 6th, presents the many suggestions offered to meet this acute situation, including the list of the articles upon which new taxation is contemplated. It also shows the criticisms for and against the various measures proposed.
