Next Sunday Will Be Devoted to Increasing Interest in Movement

NEED FOR MORE WORKERS

Girl Scouts' Day will be observed unday in many of the churches of this fity, as well as all over the country. and sermons on the Girl Scout move ment will be preached on the basic theme of the ten rules of the organiza

The purpose of the Girl Scout campaign, which is to last ten days, is to alse a fund of \$1,033,000 for the genral expansion of the organization. The plan is to secure a sufficient number of adult sustaining members at \$1 a year. Lack of trained leaders has been

keeping down membership in this organization and at present there are but 211 paid workers in the field.

Philadelphia's quota is \$27.000 and a strong effort will be made to secure this nount throughout the city.

The Cirl Scouts now have 82,176 cities and towns throughout he country, with a membership of 5496 in greater New York. The membership during past year has almost doubled. But the membership has reached the maximum, which cannot be handled with the limited funds and leaders available.

An average of 4000 girls a month who apply are denied membership.

The appeal of the campaign to the elders is that it provides the girl an allaround training. She is trained in that is so essential to the young woman who is to become economically independent, and at the same time she is trained scientifically in all the arts of home-making and child care; she learns the raiue of health and that love of nature and physical effort and well being, which are indispensable to all-around velopment; she learns her responsibility as a member of the community
