## Unless It Is Compelled to Do It

THE Bureau of Municipal Research believes in cooperation. It believes with the ancient Biblical authorities that "A soft answer turneth away wrath." Its statistical, financial and governmental specialists believe, severally and individually, that "he who conquereth himself is greater than he who taketh a city," so they don't get "mad" unless they have to.

The Bureau of Municipal Research is fighting the battles of every Philadelphian—your battles. It strives always to see that the money you pay in taxes brings you one hundred cents of service for every dollar you pay.

Every fearless public official in the city and in the state is whole-heartedly with the Bureau of Municipal Research in the great work it is doing and hopes to do for you and for your family. He has no reason to fear the activities of the Bureau in your behalf.

The Bureau of Municipal Research is an impartial organization, backed by impartial public-spirited citizens.

## But

if it becomes necessary in fighting your battles for the improvement of your city, its government, its methods in the administration of its financial affairs, and if unscrupulous men-seek to impede its progress and your progress, then the Bureau uses a club—then it asks for no quarter nor does it give quarter, and usually it wins because it is right.

Let us tell you just what the Bureau of Municipal Research can do for you and your family.

We shall be glad to do this if you will clip the coupon below.

CITIZENS' COUPON Bureau of Municipal Research, 805 Franklin Bank Building, Philadelphia I desire to know more about the working of your organization and I am particularly interested in scheck topic of greatest interest to you)- A better water supply.
 Justice for the poor in the city's courts.
 Constitutional revision.
 Correcting mandamus abuses. More pay for school teachers.
Making the city's sinking fund work.
Pair pay and fair play for all employes of the city.

## Change to winter oil now and avoid lubrication dangers

Motor oils thicken as they get cold. Many oils, at freezing, will not flow freely. Bearings and cylinders are left dry-destructive friction sets in-serious and permanent damage to your engine results.

The only safe oil for your car in winter is an oil that flows at zero and below. SUNOCO is such an oil. It lubricates perfectly in the coldest weather.

Avoid winter lubrication dangers by changing to SUNOCO now. Have your crankcase drained, cleaned and filled with the type designated for winter use in your car by the dealer's "Sunoco Lubrication Guide."

SUNOCO protects you against carbon, as "The Burning Test" proves. It insures compression-tight cylinders, maximum power, high gasoline mileage and fewer repairs. Made in six types to fit all cars.

Refiner of more than a million and a half gallons of lubricating oils per week.
