

# ITALY INSISTS ON JULIAN ALPS

### Absolute Freedom of Fiume Included in Minimum Demand

### SEEK STRATEGIC FRONTIER

By the Associated Press  
Rapallo, Italy, Nov. 9.—Italy's minimum conditions relative to the settlement of the questions arising from the establishment of a new frontier between this country and Jugo-Slavia comprise possession of the Julian Alps and the absolute freedom of Fiume, which must have physical connection with other Italian territory.

Count Sforza, Italian foreign minister, who opened conversations with Jugo-Slav delegates at Villa Spinola, near here, declared yesterday that unless these fundamental points were accepted, it would be useless to discuss the fate of Dalmatia, and that the dignity of both countries would not permit a continuance of negotiations.

Minister of War Bonomi, illustrated the strategic necessity of Italy having the frontier demanded, but did not imply that any offensive operations might be expected from the Jugo-Slavs.

Premier Vesnitch, of Jugo-Slavia, emphasized the viewpoint of his country that it would be impossible to cede to Italy territories in which there is a predominance of Slav population.

Dr. Trumbich, Jugo-Slav foreign minister, also spoke at length attempting to open the discussion by questioning Italy's right to the whole Istrian peninsula. Count Sforza, however, interrupted him by saying that a discussion was "perfectly useless."

"It is impossible to continue," the count declared, "unless the view is accepted that Italy must have a frontier which can be logically and militarily defended."

Santa Margherita, Italy, Nov. 9.—(By A. P.)—Danger of a revival of a Danubian confederation headed by a member of the Hapsburg family, appears to be seriously regarded in Jugo-Slav circles. Members of the delegation which came here from Belgrade to confer with Italian representatives relative to a settlement of the Adriatic problem assert they are looking to Italy for economic and political support.
