The Question Corner

- 1. Who is Mrs. Samuel H. Cole, of New York?
2. In what rapid way are cantaloupes seeded by the natives of the places where they grow?
3. What inexpensive material is used to make an attractive lampshade?
4. Is it correct for a man to keep his glove on when he shakes hands with a lady?
5. What is a sautoir?
6. In what novel way are ruffles of lace or material placed as trimming on evening frocks?

Saturday's Answers

- 1. When a room is insufficiently light by wall fixtures, the placing of a mirror behind them or opposite so that it reflects and throws out the light will lighten the room.
2. A useful device for rolling an umbrella neatly is an aluminum cylinder which keeps the folds flat while it is turned around to roll them.
3. The newest fad in mantel decorations is the use of Chinese birds made of porcelain.
4. An amusing standing ash-tray suitable for a club room or den is supported by a stiff, wooden gutter painted in bright colors.
5. A pretty pin that would be a nice gift for a little girl is of silver and enamel in the shape of a basket of flowers.
6. Evening slippers this year should match the gown they are worn with, unless they are of gold or silver.

Adventures With a Purse
I wanted to be very unpleasant, and I rather well—smug, I could remind you rather facetiously that Christmas is only some fifty-four days away...

And right near these camisoles are the candlesticks. I find myself a little surprised and "stumped" for I do not know how to describe them.

"Any Fool Can Find Fault"
SO SAYS Director Twining, of the Department of City Transit, in lauding the work of the Bureau of Municipal Research—
"Any fool can find fault with what exists, but the Bureau aims to prescribe practical remedies."
William S. Twining
Other men prominent in civic work and activities are no less emphatic in their praise.
Dr. William Draper Lewis says—
"Any one familiar with the history and work of the Bureau of Municipal Research must marvel at its accomplishment."
