Franklin Post Plans to Visit Disabled Men and Provide Needed Entertainment

PLANS ANNUAL BANQUET

The Benjamin Franklin Post 406, at its meeting in the Chamber of Commerce assembly room, decided unanimously to authorize the appointment of a committee to visit the disabled veterans included in the post membership, and to arrange for the periodical entertainment of wounded soldiers, sailors and marines who are quartered here.

Warren B. Miller, as chairman of a special committee on the question of care of the disabled veterans, presented the resolution providing for the visiting of disabled men.

The commander named the following committee to carry out the purposes of the resolution: Theodore Le Boutillier, chairman; Dr. Fairfax Irwin, the Rev. Edward M. Jeffrey, Joseph A. Lagorelle and R. F. Johnston.

"Push" and "Pull"

Until recently the fear of establishing another pork barrel has kept the United States Government from buying advertising space for any general campaigns.

There are some 21,012 publications listed in N. W. Ayer & Son's Directory, and where among them is one so small and so insignificant as to be without political "pull"?

About a year ago 116 of the leading advertising agencies formed a corporation with stock held by members of the association.

With the co-operation of the newspaper associations, this corporation was in a position to bid for and execute government advertising with the one thought of rendering service to the account and without care for political expediency.

During the war, nearly all government advertising was donated either by publishers or private capital.

Now, even our government can advertise intelligently. **Butterick—Publisher**
