

**STREET BIDS STAND**

**Satisfactory Progress Made in City's Plans for Cleaning Highways**  
The plans for cleaning the streets and collecting the ashes, rubbish and garbage in the area between Columbia avenue and South street and the two rivers next year, are progressing satisfactorily, but Director Caven, of the Department of Public Works, refuses to make them public until they are completed. The necessary equipment is being procured and that everything will be in readiness to start the work at the beginning of the year.

The proposals, which were submitted in September for the remaining eleven districts in which the city has been divided, and which were far in excess of the contract prices for the current year, will not be thrown out and new bids asked, as was contemplated. On the

contrary, the awards will be made to the lowest bidder in the respective districts, and official announcement to that effect will be made in a few days.

Up to the present time \$180,000 of the \$400,000 appropriated by City

Council for the purchase of equipment has been expended, and bids for additional equipment, the approximate cost of which is \$150,000, were opened by the Department of Public Works yesterday.
