1800 Men's Suits at Half Price!

We predicted, when we started our General Reduction Sale of Men's Clothing at a great loss of profit, that we would soon reduce our stock to the point where we could enter the market and buy Clothing at new low prices—letting the manufacturers share the losses.

Now comes the climax of the season's economy propositions. We have procured nearly 1000 Men's and Young Men's Winter Suits, at one-half the manufacturer's regular prices of this season, to which we add about the same number from our own stock at half price—the manufacturer's loss on the new purchase offsetting our loss on the remainder.

Almost 2000 Men's Winter Suits at exactly one-half the prices at which they have been selling. These prices are much lower than we can care to hope the regular prices for suits of equal quality can possibly be next spring.
