

BERLIN EMBASSY FOR SALE CHEAP

Chance for U. S. to Obtain Palatial Residences of Hapsburg Diplomacy

VANDERLIP MEETS DAVIS

Special cable dispatches reprinted from today's Public Ledger. Copyright, 1920, by the Public Ledger Co.

Berlin, Nov. 30.—The United States has an excellent opportunity to profit from Austria's financial difficulties and the low value of the German mark and acquire a magnificent embassy building in Berlin for virtually a song. It can be seen from the long-discussed project of owning its own embassies in the principal European capitals so as to permit the selection of ambassadors from men of ability but modest means, for it can become the heir to the homes of Hapsburg diplomacy in most of the capitals of Europe since orders have gone out from Vienna to liquidate all the embassy properties to raise money to keep the home government going.

Vanderlip to Show His Hand London, Nov. 30.—Washington Baker Vanderlip yesterday conferred for an hour and a half with Ambassador Davis and J. Butler Wright at the American embassy.

"I told them," Mr. Vanderlip said, "that I would go to Washington immediately upon my return to the United States next week and put all my cards on the table."

Last night Mr. Vanderlip issued a statement from the Soviet government "to the American people," which declared:

"Tell the American people to send us locomotives and our armies will never rest until every Japanese in Siberia is under ground or in the sea. Let America, Canada, Australia and Russia make of the Pacific a free ocean. The political situation will never again be so propitious."

Bavaria Gets S. P. C. Beer Again Berlin, Nov. 30.—Beer versus prohibitionism—that is the situation in Bavaria. Just as the hard winter is setting in, with a lack of fuel and a short-

age of food, the Bavarian Government is permitting the brewing of 8 per cent beer, which is the pre-war quality.

Poles Beg Hoover for Food London, Nov. 30.—Two appeals from Poland on behalf of the undernourished and starving children of that country were sent to Herbert Hoover yesterday through the American relief administration from its London headquarters.

Lively Interest in U. S. Oil Note Geneva, Nov. 30.—Lively interest is displayed here among the delegates in the published text of the American note to Great Britain regarding the Mesopotamian oil fields. Coming at a moment when council and the assembly committees have the difficult problem of mandates under consideration, the judicial point raised in the American note as to the competency of a mandatory to exploit the raw materials under its

mandate for its own advantage, is considered by jurists handling the matter as of the highest importance in fixing the definite status of mandatories in their respective territories. It is held here by some authorities that the American thesis, i. e., that all nations must have an equal advantage in mandate territories, is a fair interpretation of the letter and spirit of the league covenant as regards mandates.

WILL OPPOSE "SAD SUNDAY"

New York Sporting Organizations Seek Liberal Observance

New York, Nov. 30.—(By A. P.)—A movement to form an organization opposed to the announced plans of the Lord's Day Alliance for a stricter observance of the Sabbath was launched yesterday by several sporting and amusement organizations, including the International Sporting Club.

The proposed organization, it was said, plans to center its efforts in crystallizing sentiment in favor of a liberal Sunday observance and to submit its plans in concrete form to Governor-elect Miller as soon as he takes office.

Efforts also will be made to convince the governor that sentiment is against the reported efforts of some Republicans to repeal or amend sporting legislation, such as the boxing law and the Sunday baseball law, passed during Governor Smith's term.

A canvass of the state also will be a part of the campaign by the new organization, it was said, for the purpose of presenting petitions to the governor favoring a liberal Sunday.

Pekin to Shanghai Air Service Special Cable Dispatch, Copyright, 1920, Shanghai, Nov. 30.—Official sanction has been given by the Pekin cabinet for the inauguration of an air service between Pekin and Shanghai. There will be intermediate stations at Tsinan, Su-chow and Nanking, where stops for the night will be made. For the first six months the airplanes will transport only mail, but after that they will carry passengers and express.

U. S. MUST LEAD IN GAS WARFARE

Gen. Fries, in Report to Baker, Urges Development Greater Than Any Other Nation

POINTS TO PROGRESS

By the Associated Press Washington, Nov. 30.—Declaring that the world war demonstrated that "an enemy bent on aggression cannot be trusted to live up to any set rules for war," Brigadier General Amos A. Fries, chief of the chemical warfare service of the army, in his annual re-

port to Secretary Baker today, asserts that the development of this branch of the United States army to a point "where it is impossible for any nation to get further" will do much toward deterring other nations from forcing hostilities against the United States.

This country is in a position to manufacture and to deliver on the field of battle more chemical than any other nation or group of nations, says General Fries, adding that "the United States has wisely decided to continue the chemical warfare service with sufficient powers and funds to develop its possibilities, not for aggression, but to insure that if American boys must ever again shoulder arms in defense of the liberty of their country they will do so on an equal footing with any other nation so far as chemical warfare is concerned."

During the last year the service has conducted experiments of great value in the production of new gas and chemical instruments of war, the report says, and has affected a close liaison with chemists and chemical societies in civil life.

All formal war contracts of the service have been settled, and informal con-

tracts are more than 98 per cent liquidated, the report asserts. Of the formal contracts, 1214 have been settled for slightly more than \$287,000, a saving to the government of more than \$6,000,000. The salvage and sales section of the service disposed of plants and materials representing an expenditure of nearly \$7,500,000, the report says, the sales averaging 27 per cent of the cost price.

AGED COUPLE DIE TOGETHER

Fearing Poverty, Inventor, 82, and Wife, 80, End Lives

New York, Nov. 30.—John Guest, eighty-two years old, and his wife, Augusta, eighty, committed suicide by inhaling gas early yesterday in the room they had occupied for years in Brooklyn. Guest, an inventor, was prominent in Masonic and Republican circles when St. Felix street was fashionable, but lost his money in litigation over patent rights.

Mrs. Catherine McGuire, proprietor

of the rooming house, found the aged couple, clasped in each other's arms, dead upon the bed. Mrs. Guest had dressed herself in the last of the well-worn finery of other days. To a Masonic apron hanging over a chair back was pinned a note. It said: "Please bury this with me, John Guest." A letter in the wife's handwriting was addressed to Mrs. Fannie Wyatt.

Mrs. Wyatt said the letter had been written late Sunday night and that in substance Mrs. Guest had declared she "could stand it no longer" and that death "would be sweet" both to her and her "dear husband," who had been her life's companion.

STUDENTS ARE REBUKED

Cornell's Acting President Tells Men Coeds Must Be Respected Ithaca, Nov. 30.—Hissing of women students and an apparent disposition on the part of men students to make them feel ill at ease whenever they appeared at a public gathering around the campus caused A. W. Smith, acting president of Cornell University, to issue a statement yesterday reminding

the men that the coeds just be respected. President Smith's action is a climax to an anti-feminism movement that was started when a handful of good-looking young women from Sage College marched in a parade and later went to New York to cheer the football players in the Dartmouth game. The president's statement mentioned disloyalty to the name of the university, saying: "He who is disrespectful to the women students is disloyal to the founder's memory and to the good name of Cornell."

If you're out to coax a saving— Try this convenient corner. Prices on all our men's winter suits and overcoats have been pruned all along the line.
