## Durability

The foundation of Steinway pianos-case, frame, sound-board - is permanent. These fundamental elements may be said to be everlasting. The wearing parts, which cost little to renew, may be replaced and the piano restored to its original beauty of tone and delicacy of touch many times. It is the indestructible piano; though it is the most delicately adjusted and the most exquisitely balanced mechanism of man's contrivance. If the same degree of relative strength and durability of Steinway parts and their precision of action could be applied to motor cars, but one car would be needed to a lifetime, and cost of upkeep would be reduced one hundred per cent.

You will better understand this Steinway Durability by reading "Steinways of Today." A copy will be sent on request.

Steinway pianos may be bought on monthly payments
