LINE OF SATURN A—It runs from the neighborhood of the wrist toward the middle finger. If long, deep and clear is its whole length, it shows that one will have all qualifications for success throughout life.

To regard nature as a bookkeeper may be a bold idea. But, if you doubt the possibility of it, look at the line of Saturn, which runs from somewhers in the neighborhood of the wrist upward toward the middle finger (the finger of Saturn). This line is, so to speak, the balance sheet of the hand, and shows, in a nutshell, what the result, the sun total of the qualities of a person will not him at any given period of his life. For, although the ane of Saturn is known alse as fate line and line of destiny, it has really nothing at all to do with luck or chance or fate, but serves merely to show that the qualities which its owner possesses will, at this or that period of his life, render him capable of more productivity or jess productivity; of more energy and industry or less energy and industry, and therefore, bring him a promise of success or a threat of fallure at the periods indicated. ## Please Tell Me What to Do By CYNTHIA

He's in Love

Dear Cynthia-In answer to a reader who asks if there is such a word—she must mean "thing"—as love, I would say you bet there is. I am in love this very minute, and don't ask me to define it. I couldn't. I just know it's it. That's all. ARCHIE

To "A Reader"

My dear little reader-Surely you cannot want to marry a man with the record you tell me he has Break with him and do not accept his presents. Your conscience is not quite clear about and friendship, Cynthia would judge as if it was you would not have gone out with him unknown to your family.

About a Wedding Dear Cynthin-I expect to be married some time in June, and I am wondering what the proper things are for me to wear at a 12 o'clock wedding. Would a thin white dress and white hat be proper? Does the bridegroom furnish the

flowers for the bride? What does the man wear? MARY Y. F.

On the Stage

Ballet dancing is one of the best paid professions for wemen, and one of the few branches of stage work that is not overcrowded.

A prominent critic has aroused a storm of protest from women of the dramatic profession by declaring that the American stage of a generation ago ble actresses than it does today.

With you.

One who wrote and signed himself "C. R." described what true love is and medical true love is and himself "C. R." described what true love is and himself "C. R." has said, as he has given the greatest and best definition of love that is possible to the readers. I certainly that the greatest and best definition of it, as I agree with him fully.

If only the young women of today would rend that letter over and over lit would be a good lesson for them, and they could replace in their minds the true meaning of love, after having of this most wondrous thing. Congratual the American stage of a generation ago possessed a far lurger number of capable actresses than it does today.

The other letter was in answer to the what true love is and means I certainly think this was a fine letter and he true meaning such as the has the rouble is that the american stage of the building such as the particular travel; she goes abroad sometimes; she goes to various conventions and exhibitions.

The other letter was in answer to the one sent in by "C. R." It was signed "A Bachelor Girl" She does not exactly agree with "C. R." She claims real love is not rare or there would not be so many marriages. I'm afra'd she is wrong on that point. I wish to tell her this: There are many, many marriages going on every day, but the woman or girl who is being married has the wrong idea of love and that's why you find nothing but divorce day after day. It's the result of that one thing They don't know what love means However, "Bachelor Girl," I wish you the best of luck, just as I do "C. R." May you find a man that "measures up" to your idea of the right man.

I hope, Cyn'hia that I have not taken up too much of your valuable space. Thanking you for printing this. I am a reader of your column.
