

WOMAN SHERIFF'S DEPUTY

Mrs. Lillian Pechin Sworn In at Chester County... Mrs. Lillian Pechin, of Tredyffrin township, Chester county, took her oath of office yesterday and today assumed her duties as the first woman deputy sheriff in that county.

She is mighty interested in the work and will be a splendid help. So often there are women prisoners and it will be her job to escort them around. That is much better than having a man take care of them. Mrs. Pechin is well fitted for the position, as she has kept in touch with my work and knows what is needed. She is mighty pleased with her appointment, too. There were no other women applicants for the job.

Never gets on your nerves... POPULAR hero has a record and a character behind him which give him his good name. So has a popular cigar like Girard. Quality always the same and always good is the record that has given this wonderful cigar the most remarkable sales-growth known in cigar history. Give him GIRARD America's foremost cigar. ANTONIO ROIG & LANGSDORF Established 49 Years PHILADELPHIA

How the Franklin Meets Conditions of Today

New Schedule of Franklin Prices

Type	New Price	Old Price	Reduction
Runabout	\$2400	\$3050	\$650
4-Pass. Roadster	2500	3100	600
Touring	2600	3100	500
Sedan	3600	4350	750
Brougham	3500	4300	800
Runabout (Convertible)	2750	3300	550

Effective September 23, 1920. Prices F. O. B. Syracuse

While Franklin prices are in full accord with the spirit of the times—the big thing is that the saving involved does not stop when you pay the price; it goes right on throughout a long period of performance.

In the ownership of a Franklin Car, you get economy which for eighteen years has been a national standard:

- 20 miles to the gallon of gasoline
- 12,500 miles to the set of tires
- 50% slower yearly depreciation

There is the freedom from tire troubles and their entailed expense. Light weight and flexibility make possible the Franklin average of

only three punctures in the life of tires, with practically no blowouts.

Cooling troubles and the inevitable bills are likewise off Franklin owners' lists. Direct air cooling does away with leaky radiators, anti-freeze mixtures, and the draining and refilling nuisance. No concern over hard starting in winter, or overheating in summer.

Counted in this value as an investment are Franklin comfort, safety, ease of handling, minimum of routine care—each one of them an element in extending the usefulness of the car.

Finally you have the measure of reliability, and durability in terms of used-car values. The 50% slower yearly depreciation of the Franklin is only another way of indicating fewer repairs and longer car life.

This present careful scrutiny of value throws light on two most important factors—price and performance. In both respects, the Franklin position is to its advantage.
