ASK CONGRESSMEN TO PAY IN ADVANCE

Wire Ruling Made by Western Union in War on the Government

GOES INTO EFFECT JAN. 1

Washington, Dec. 10.—The Western Union Co. has served notice on Congress that it will no longer receive official messages from members outside of Washington unless payment is made in advance.

The action of the telegraph company in relation to members of Congress is the latest move in the company's war on the government. The company has previously served similar notice on the government departments.

Under the system proposed by the Western Union Co., each member would have to open a charge account with every Western Union office in his district, and whenever he sent a telegram from that office a separate bill at government rate would be submitted to him.

Mr. Ireland's announcement said: "He would either have to pay the bill and submit a voucher to the committee on accounts for reimbursement, or he would have to certify to the correctness of the bill, forwarding it with the telegrams to the committee for approval, after which the bill would be paid by the House disbursing clerks."

It is proposed, he said, that the country be divided into eleven zones and upon the basis of the distance from each zone to Washington that the members be appropriated sufficient money to meet the expenses of between twenty-five and thirty average telegrams a month.

The coast guard boarded and examined papers of 2005 vessels and seized 671 craft for law violation. Aviation is now an important factor in saving life and property and locating floating derelicts, the report shows.
