### Save Starving Children in Europe, Wilson's Plea

Washington, Dec. 13.-(By A. P.)-Fresident Wilson today called upon his "fellow countrymen" contribute funds to save 3,500,000 children who 'a're facing starvation in central Europe. "It is estimated," says the state

"Since 1914 our people have given with unparalleled generosity, and they should not be lightly called upon for additional charities. But there is a life and death situation in central Europe, where orphans, desti-tute, famished children, pitiful consequences of the world war, must die unless aid is sent. Ten dollars contributed through the European relief council will save the life of one child.

"At Christmas time, neculiarly the children's feast, we should think of this sad European problem in terms of children rather than in money.
