U. S. PAYROLL HUGE

One of Every 68 Workers in Government Employ

Washington, Dec. 13. — One person out of every 139 in the entire country was on the government civil service payroll last July 31, the Civil Service Commission declared last night in its annual report. The commission adds that of those estimated by the census as employed in gainful occupations in the country one in every sixty-eight was a government worker.

The total number of civil service employes last July, the commission says, was 691,116, and the government was using them in approximately 1700 different kinds and grades of work.

There were almost a million government employes at the height of the world war, the commission asserts.

The commission declares that an "altogether rosy picture cannot be painted" of the government's personnel situation.

WALTER G. HENDERSON, Treas.

RELIEF IS EXPECTED IN HOUSING BILLS

Phila. Delegation Thinks Congress Will Act Quickly on Pending Measures

HOPE FOR ACTION IN WEEK

Efforts to effect immediate housing and farm relief throughout the country will be taken by Congress within a short time, according to the Philadelphia delegation which attended Saturday's committee hearings in Washington.

"We heard that Senator Calder, who is in charge of the Senate bill providing for the exemption of mortgages from income tax, is likely to report it favorably from his committee within a week," said Daniel Crawford, Jr., president of the Operative Building Association of this city.

"There was every evidence," continued Mr. Crawford, "that the House ways and means committee will give proposals for housing relief speedy and favorable action. Members of the House committee, before whom we appeared, come from all parts of the country, and have equally before them the shortage of funds and credit for farmers and city dwellers alike. They appear to realize that the business of the whole country is tied up because no branch of activity appears able to get necessary credit to operate. The shortage is particularly acute from the standpoint of public policy where it affects home-ing and agriculture."

Members of the local delegation, which included William H. Wilson and a committee of the Philadelphia Real Estate Board and Willson Smith, vice president of the Land Title and Trust Co., urged that mortgage investments should be made free of income tax without reservations, though the House bill proposes a limit of tax-free mortgage investments at $40,000.

The next phase of the housing problem to be taken up will be at Harrisburg tomorrow, where the State Chamber of Commerce is conducting a session on the proposed housing code, which it has had prepared for introduction into the Legislature. The Operative Builders' Association will send a delegation to oppose many features of the code as a result of a resolution condemning it as impractical at its meeting to consider a legislative program on Friday night.

The builders hold that the proposals in the new housing code for "garden tracts" are impractical and if effected will wipe out all opportunity for workingmen in large cities to own their own small homes in compact rows, such as are now built. An attack also will be made upon summary police powers, which the framers of the code have sought to confer upon the officials responsible for its enforcement. One of the features, it is said, would give agents the right to enter buildings at any time to make inspections of conditions.

Further conferences with Governor Sproul and State Banking Commissioner John S. Fisher are being arranged by proponents of the builders' legislative program at Harrisburg and it is expected that the schedule of activities to receive co-operative backing will be developed strongly within the next week.

TO ISSUE WAR MEDALS

Victory Awards Will Be Made at Second Regiment Armory

Victory medals will be issued direct upon presentation of honorable discharge to former soldiers every evening at the Second Regiment Armory, Broad street and Susquehanna avenue. Members of the army recruiting party will be on duty at the army booth, handling all applications.

All men who served in the army, navy in America or abroad, are entitled to the 1/2 of silk, which is the ribbon from which the medal is hung. The added pennies, and the distinctive American bronze star. Separate stars are issued for each battle operation and for each country where Yankee troops served.

Some of the weapons used during the war by the Allies, enemy machine guns and protective armor, captured by United States infantry will be exhibited by the army recruiting service at the bazaar.

FEW SWISS COMING TO U. S.

Not More Than 7500 Listed for 1921—Nearly All Farmers

Special Cable Dispatch, Copyright, 1920

Berne, Dec. 13.—Swiss emigration to the United States next year will not total more than 7500, according to estimates from various consulates handling passports. Up to December 10 the Berne consulate had granted 1780 vises, while the other five consulates combined had about the same number of applications. In response to a request, estimates were made from each consular district on expected business for 1921, with statistics showing the occupations of the emigrants.

While 85 per cent of those making application are agricultural laborers, they are mostly sons of farmers, well educated, steady and good material for American citizenship. The other 15 per cent includes industrial workers of all types.

CHRISTIAN SCIENCE CONSPIRACY HINTED

Former Reader Says "Autocratic" Directors Are Trying to Wreck Organization

PENDING SUIT IS CRITICIZED

New York, Dec. 13.—A far-reaching conspiracy to shatter the great organization built up by Mary Baker Eddy and make of the Christian Science Church a charitable trust to be administered for the benefit of the public generally by the office of the attorney general of Massachusetts, is the charge of Campbell MacCulloch, formerly first reader of the First Church of Christ, Scientist, of this city.

The investigation just begun by the district attorney of this county, Mr. MacCulloch said yesterday, touches only incidentally the real matter at issue in the Christian Science Church.

"That issue," he asserts, "is whether the board of directors of the mother church in Boston, angered at their inability to maintain absolutely autocratic control over the affairs of the church, shall be permitted to subjugate the religious interests of its members to political control, to wreck completely the world-wide organization of the church and possibly to divert its great income to uses other than those desired and provided for by its founder."

There is now pending in the Supreme Court of Massachusetts a suit filed by the state attorney general to have the Christian Science Church declared a public charitable trust. That suit followed the granting of an injunction to the trustees of the Christian Science Publishing Society in Boston, restraining the board of directors of the church from interfering with the conduct of the publishing business of the church. The trustees had charged the board of directors with autocratic control.

The opening paragraph of the attorney general's bill of information filed in the Massachusetts Supreme Court, says "the First Church of Christ, Scientist, in Boston, with its inter-related activities, constitutes a public charitable trust devoted to the advancement of the Christian Science religion, for the benefit of the present and future adherents of Christian Science and the public generally."

MUNICIPAL COURT POOR PEACEMAKER

2426 "Adjusted" Cases of Domestic Spats Are Reopened Later

The domestic relations division of Judge Brown's Municipal Court reopened 2426 cases which had apparently been adjusted earlier in 1919, according to a report just issued.

According to this report, one of every four cases of domestic dissolution brought to the attention of the court officers was adjusted satisfactorily.

There were 6140 desertion and non-support cases, and 282 cases wherein dependent parents had been abandoned.

Although the report gives voluminous details concerning the work of the court, it is indefinite concerning the number of employes, which has been the cause of much criticism of the court and its payroll.

"The probation officers assigned to field work handled during the year 8501 cases—7199 cases of nonsupport, 297 abandonment of parents cases, 264 habeas corpus cases and 801 miscellaneous and special cases for investigation or supervision. Over three-fifths (5256, or 62.6 per cent.) of the cases handled were investigation cases and 3205 were supervision or probation cases," the report says. "Investigations were made in 5057 new cases; in 500 cases carried over from 1918, i. e., entered in 1918 but not disposed of in that year, and in 1409 cases reopened after a previous disposition."

YOUNG JUDAEANS TO MEET

Convention to Begin Saturday Night. More Than 20,000 Children Belong

Young Judaeans of America will hold a convention in Philadelphia next Saturday night and Sunday. The organization consists of a membership of upward of 20,000 children and adolescents scattered through the States of the Union.

The problems of the convention are to declare means of financing the movement, to decide or draw up a program and to discuss the matter of leadership.

The Young Judaea movement until the present time has been financed by the Zionist Organization of America through its department of education. At the last convention, held in Buffalo, the Zionist Organization of America severed with the department of education and will concentrate all its time, energy and money on actual work in Palestine.

Rabbi Abraham J. Feldman, assistant to the Rev. Dr. Joseph Krauskopf, of Temple Keneseth Israel, is president of the Young Judaea of Philadelphia.

PROTEST CALIFORNIA LAW

Japanese Students Object to Being Treated as Inferior Race

Tokio, Dec. 13.—A large mass meeting of students, members of the Students' League of Japan, was held here Sunday in Ueno Park. A resolution protesting to the world in the name of "justice and humanity" against the anti-Japanese law in California was passed. The resolution called on the American people to "reflect on their course."

The speakers, chiefly students and journalists, declared that while the world recognized Japan as a great power, America treated the Japanese as an inferior race.

REGULARS DESERT TO AID D'ANNUNZIO

Three Armored Motorcars and Crews Join Poet at Fiume

ROME PLANS ULTIMATUM

Trieste, Dec. 13.—The first break in the regular Italian army occurred Saturday, when four armored cars started from Udine, three of which succeeded in reaching the palace of Gabriele d'Annunzio in Fiume.

The fourth car was prevented from reaching its destination by a sentinel, who threw under its wheels obstacles which cut the tires, bringing it to a halt. The crew of the car, however, escaped and managed to reach Fiume on foot.

It is stated that owing to the immovable position of D'Annunzio the government intends to send an ultimatum to him containing a threat of offensive action. It is reported, however, that D'Annunzio would welcome any military demonstration.

The deflection from the army and the recent joining of the poet's forces by naval craft, it is believed here, will hasten decisive action. General Caviglia's mission to Abbazia is considered in this connection.

There were wild scenes in Fiume Saturday when members of the autonomous parties, who are D'Annunzio's sworn enemies, were beaten by legionaries in reprisal for their having passed resolutions condemning the poet. Socialists also were attacked.

The old National Council has passed a resolution declaring that its members will remain true to D'Annunzio.

POPE SENDS U. S. GREETING

Christmas Message Blesses K. of C. and Others for Charity Works

New York, Dec. 13.—Pope Benedict sent Christmas greeting to the entire membership of the Knights of Columbus and to all Roman Catholics and other citizens of the United States, blessing them for their works of charity, in a message received here last night by supreme officers of the Knights of Columbus.
