X. Y. Z.—As you have not signed your name to substantiate your letter, it is not possible for Cynthia to print your letter. Though signatures are not printed when writers to the column ask that they be withheld, there should be the signature and address of the writer.

#### Parents Object

Dear Cynthia—I am engaged to a young man one year my senior. We had been going together five years before we announced our engagement. Two years ago my people decided that I liked the boy too much and they wanted me the boy too much and they wanted me to go with as many boys as would take me out. They said he should never come in the house again, but gave no reason why. My friend asked father why and he said he had nothing against the boy's character, but would not say any more. This same thing happened to my sister after she had decided to marry a certain boy. They never saw her again till she passed away. I would hate to have this happen.

for me as they can. WORRIED.

How old are you? Cynthia's answer depends on that. If you are of age and depends on that. If you are or age and the young man can support you, your parents will surely be persuaded to ac-cept him as a son-in-law. But if you are not of age, you should listen to your parents, but if you are so much in love with this young man you can agree to marry after you are of age.

#### Wants to Help Others

Dear Cynthia—I read in your column some time ago of a lonely girl who claims that she is very lonely. I also am of her city and was once lonely, but have finally found a few good friends with whom I can have a good time. I was prepared from writing sooner of was prevented from writing sooner of account of my studies, for I am a stu-dent like the lonesome westerners. may already be acquainted with the ionely girl from the "mountain city." but whether or no I would like to meet her. Dear Cynthia—There comes to me
very often, as I read this column, a
ridiculous sense of the semiptiful,
semiludicrous and semidisdainful, nauseatingly mixed, when I come across letters that lovelorn infants have dared to
send in for publication.

it Wouldn't Be Rude

To the Editor of Woman's Page?

Dear Madam—Will you please solve for me a small question concerning some gifts for Christmas? I know a young woman to whom I intend sending a gift. I feel that the acquaintance between her husband and me is a bit more formal. Fo you think that it would be rude or poor taste to send her a gift and not him?

MISS F. R.

It would not be poor taste or rude to send a gift to your friend without send.

him? MIBS F. R.

It would not be poor taste or rude to send a gift to your friend without sending it to him also. You could send something for the house so that her hus hand could enjoy it, too, or you could something for the house so that her huse band could enjoy it, too, or you could send the gift to her and inclose a Christmas card for both of them, if you feel uncomfortably about it. But it would be perfectly proper to send her just a little personal gift just as you did before she was married.

## A Home for the Aged

To the Edstor of Woman's Page:

Dear Madam—Will you kindly let me know if there is a Catholic home for aged people in or near Philade-phin?

MRS. M. C. R.

There are three homes for the aged, both men and women, under the charge of the Little Sisters of the Poor, within the limits of the city. Any priest would be able to tell you how to get in touch with them, or any other information that you would like to have.

To the Editor of Womon's Page:

Dear Madam—I am a girl of thirteen and would like your advice very much. I want to earn a little money to help buy some of the things girls of my age want as my parents cannot afford it. Please help me. SERIOUS BROWN EYES.
