Reading and Trenton Will | Standings and Schedules Break Existing Tie or Christmas — "Stretch" Meehan Back With Germantown Team

With only three weeks of the first half remaining to be played, the Eastern League Baskethall pennant is as near being settled as when the season began two months ago. Trenton and Reading are in the threes of a deadlock for first place, with the Camden champions only a game in the rear and threatening to take advantage of

den champions only a game in the cear and threatening to take advantage of any slip the leaders make. The winner may be determined in a measure with the playing of this week's games. Trenton and Reading draw Coatesville in one of their matches, but on Christmas at Reading, the Bears and Tigers clash in what may be the and Tigers clash in what may be the game that will turn the tide.

Trenton lost ground the past week when they split even, while both Camden and Reading came through with a pair of wins and a perfect record for the week of 1,000. Camden is playing

the week of 1.000. Camden is playing the best ball of any of the teams and while a whole game behind Trenton and Reading, sentiment is swinging in their favor and many look for the Skeeters o come through and cop the first half. Locals Going Better In the meantime, Germantown and

In the meantime, Germantown and Philadelphia are playing a better brand of ball, even though consistent losers.

On Saturday evening, Philadelphia gave its followers something to enthuse over then Coatesville was decisively defented in spite of the fact that the latter's league acquisition had a high-priced cast on the floor. Manager Myers made a fine move in signing Andy McMahon, the star of Post 26. The American Leaguer made

good in his debut at Trenton and proved a decided hit on Saturday at Musical Fund Hall, when he held Jimmy Brown Fund Hall, when he held difficult on the second to a single field goal. McMahon is a west philadelphia church league fine scorer himself, but on this occasion led to come through with his usual Richard'n Dave Bennis, of Germantown, is also doing his utmost to strengthen that club and already the reconstruction process meeting with success. # Money—Burns All

Have you ever figured out the amount of precious, hard-earned dollars you lose every winter because of the great amount of heat that goes up the chimney instead of into the house? Heat from coal is generated through the burning of gases in the coal. Unless all these gases ignite you are actually wasting good money. With the King Koal Karburetor every bit of gas is ignited; less coal is used and more heat generated.

Less Ashes—Less Work No Ash Sifting-No Coal Gas The King Koal Karburetor burns ALL the coal.

No half burned coal in the ash pit; no clinkers that choke the fire and reduce its efficiency; no dangerous coal gas. The King Koal Karburetor is installed right in the door of your heating system or the lids of the coal range. There is nothing to regulate; nothing to get out of order. It is on the job all the time SAVING YOU MONEY WITH EVERY SHOVELFUL OF COAL. The King Koal Karburetor is no experiment. We have hundreds of letters from satisfied users in all sections of the city.
