Pepper Declares Levy Would

granting of a greatly increased approristion for public schools without re-

rting to extra taxation. This statement was made today by town George Wharton Pepper, a member of seorge Wharton Pepper, a member of the constitutional revision committee, mantown branch postoffice. the quoted Auditor General Snyder as fiving this information to the commis-According to Mr. Snyder, said Mr. Pepper, the leaks in tax payments he to incomplete facilities for collecting taxes due the state cost it many millions of dollars annually, \$25,000,000 being given as an estimate of the aggre-

gate amount.

Already, as Mr. Pepper quoted, the suditor general had accounted for \$16.000.000 by appropriations to increase the tax collecting forces and facilities.

This saving, it is said, would enable the entire financial program for the schools to be presented to the Legislature in the coming year, to be put through without making it necessary for the state to resort to any extra taxa-

The program of Dr. Thomas F. Finegan, state superintendent of public instruction, it is said, will call for an appropriation of \$70,000,000 until the next meeting of the Legislature in 1923. This will mean an appropriation of \$35,000,000 a year for the schools of e city and state, which amounts to out \$7,500,000 more per year than

taked for last year.

The extra money will go toward defreying increases in teachers' salaries, according to a schedule mapped out by Dr. Finegan, which is outside of the increases which teachers in this city have already received. It will also be used to an extent to help in a building and repair program. Dr. Finegan is now renducting a survey of the schools in the city, which will include among the city, which will include among other findings and recommendations, it is believed, a general repair program for school buildings.

AGED AND RAVELERS

HE regrance of Christmas trees filled the air linking the busy city street with the spruces fill all the mystic distances.

The little girl and her mother stopped to buy one. What a gigantic task it seems. Like a forest transported they were lying fragrant, but inert against the building. All sorts, gives and descriptions, but after all just trees, it is death binnelf to a strap and like better than the others. They distance the building. All sorts, gives and descriptions, but after all just trees, it led to the seem down the aisle of a building. A nother of a minute of a minute of a minute. Then the building. All sorts, gives and descriptions, but after all just trees, it led to the series down the aisle of a building. A nother of a minute of a minute of the building. All sorts, gives and descriptions, but after all just trees, it led to the series of the pulloding the busy city street with the objects of spreading green branches and its of spreading to the expansive hearted, but evidently not sufficiently so, for the expansive hearted, but evidently not sufficiently so, for the expansive hearted, but expansive hearted, but expansive hearted, but the fast the conductor had after that the conductor where it that the limit!" What a gignific the spin late

face until a positive beam took its place. Then suddenly, as though on sudden inspiration, he tapped the arm of the gentleman on the right.

"Feel like giving everything 'way this week," he confided in a voice Cliffon Crawford would have envied. "Beginning today feel just like giving everything way."

The gentleman on the right was politely interested, but evidently not sufficiently so, for the expansive hearted citizen looked burt for a minute. Then he turned to his left.

"D'dye hear what' I sad, Madame?"

The song o, lady?"

Only a disapproving look was his song go, lady?" said the customer of twin desired. "I want to write the card here so you can send it right out from the store." Shouted a wit somewhere in the crowd, and after that the conductor had to call for order.

THE saleswoman at the counter where sold.

MINRAL-STUKKO

"Defies Time and the Elements"

Minral-Stukko the elastic stucco-the permanent stucco -the STUCCO BEAUTIFUL! Storm-proof, fire-proof, time resistant-no material now known to building science will pay bigger dividends in comfort, beauty and lasting satisfaction.

Minral-Stukko fills every corner, crack and crevice; it seals out water, vermin, dampness and cold; it saves 33 1-3% of your coal bill—and gives you added comfort for good measure.

No ordinary settlement of foundations or frost can cause it to crack or disintegrate. It is WEATHER-PROOF, and has five times the tensile strength of cement stucco.

buildings old or new even in zero weather.

It can be applied Winter or Summer by plasterers on

Remodel Old Homes With Minral-Stukko A wide variety for easily applied marble or granite dash finishes makes it suitable for any style of building. A beautiful, permanent, modern stucco-you will find it

easily handled and unusually artistic in results. It can be applied over frame construction, brick, stone, metal lath, wooden lath or hollow tile with equal facility and uniformly good results.

Minral-Stukko enhances the appearance of any home to which it is applied, and increases property values and rental returns. It needs no water-proofing and requires no upkeep.

Why attach a coal furnace to a Modern Heating System?

You can't expect a modern heating system to be a modern convenience if it is dependent on an antiquated source of heat supply to function properly.

The old method of coal heating is inefficient at best. Dependent, as it is, on the human element for attention in building fires, shoveling coal, raking and taking out ashes, etc .- the coal furnace is an entirely old-fashioned source of heat supply.

Note the small size and compactness of the "HO? WAVE" heater—you can almost get the whole apparatus in a steamer trunk. Makes for a clean cellar, without coal bins, wood piles, dangerous oil tanks or other mess

The modern and most efficient source of heat supply for hot water, steam or vapor heating systems is the "HOT WAVE" GAS FIRED BOILER. It may be installed in place of the coal furnace or boiler without disturbing your present system and radiation.

By this method you turn on the pilot light October 1st and there is no attention necessary until you turn it off again in April. No work -clean cellars and an even temperature is maintained all the time by a perfectly working thermostat. The thermostat may be set so that any temperature desired is accomplished, such as from 7 A. M. to 11 P. M. you may get say a temperature of 70° or more, and from 11 P.M. until 7 A.M. a temperature of 50° or less.

We extend a cordial invitation to call at our display offices at the northeast corner of Ninth and Spruce streets and we shall be glad to demonstrate the advantages of the "HOT WAVE" GAS FIRED BOILER.
