Two Minutes of Optimism By HERMAN J. STICH

Which Class?

"ERE are three kinds of liars, it is said-first, ordinary, unvarnished "liars" second, "d-d liars"; and third, "statistics."

Statistics frequently include both other classes, to say nothing of a few Statistics it with been tabulated; but in the case of income tax returns hat have not as yet been tabulated; but in the case of income tax returns with as the Treasury recently made public, the figures in all probability lie on the side of conservatism-no man has as yet been hailed to court for overstating earnings and paying to the government more than he should. Here is a

ist-rate opportunity for somebody to get a lot of publicity. To preserve one's equanimity while skimming through income tax returns, is a good idea to skip the figures referring to those who have earned \$100,000, 00,000 or \$1,000,000 a year.

Here it is a case of "you're damned if you do and you're damned if you Here it is a case, the figures aggravate if you don't carn them-and if you ion't'---that is to say, the figures aggravate if you don't carn them---and they ggravate still more if you have to pay the tax on them. Thank heaven the ter is not one of our worries !

The most significant of these statistics are those relating to incomes of em \$1000 to \$4000 a year.

Comparing them with the figures for the year preceding it appears that during the period covered by the late returns, the number of people earning between \$2000 and \$3000 a year virtually doubled, as did also the number of ose carning between \$3000 and \$4000 a year.

Also, that the number of people earning between \$1000 and \$2000 a year only half of what it was the year before.

Inasmuch as the other figures are about the same for both years, it is safe Inasmuch as the people in the \$1000 to \$2000 class who are responbe for swelling the ranks of the \$2000 to \$3000 and \$3000 to \$4000 classes. These are facts that must be gratifying to Uncle Sam; who is always tickled hen his nicces and nephews get on-and even more gratifying to their recipients. he, if they keep up the pace they have set, will soon get into cipher-row rritory

And the moral of these statistics (for all statistics should have a moral) And the moral of these statistics tor all statistics should have a moral) ! Soon you will be making out another blank-and the year after-and the ar after-for a long while

And the figures will all be tabulated, and they will be arranged and classified, and editors will write stories about them, and

By the way, which class are you planning and working to be in in th ears to come?

Think of the time and work that this will save. One shop has the hooks and eyes this way, placed about an inch apart, for twenty-ine cents a vard.

MISSION AT PENITENTIARY

Religious Services at Prison Are Being Well Received, Warden Says Evangelist Samuel B. Goff. Jr., who has been conducting a revival campaign in Roxborough churches, is this week in charge of a "week's mission" at the Eastern State Penitentiary.

Many people prefer napkin rings of wash material. Some of these are Eastern State Penitentiary. Services held each afternoon, but not open to the public, are being well at-tended by the inmates of the peniten-tiary and, according to Warden Mc-Kenty, are being well received. Working in co-operation with the evangelist is Zed H. Copp, chaplain at the prison, and the musical part of the service is in charge of Oliver Arnold, Jr., of Seranton, and George Sanville, of this city. a wash material. Some of these are very attractive. Like the ones I want to tell you about for example. They are of pique, carefully scalloped and neatly embroidered with a pretty de-sign. They fasten around the napkin. these are twenty-five cents each-a

THE WORLD'S **BREAD-BASKET**

It costs more to fill it now than it did a few years ago. All the more reason it should be filled with real food the kind that supplies the greatest amount of bodybuilding material at smallest cost. Shredded Wheat **Biscuit** is all food. It is 100 per cent whole wheat, contains more real nutriment than meat or eggs or potatoes and costs much less.

Two Biscuits served with hot milk make a warm, nourishing dish for the cold days. Delicious with sliced bananas or other fruits.
