

**WILL TALK TO MOTORISTS**

Prominent Men to Address the Key-stone Automobile Club

United States Senator Lawrence C. Phipps, of Colorado, will address the Keystone Automobile Club at its 31st annual meeting at the Academy of Music on Friday evening. The senator will speak on the federal highway

system. William G. Thompson, former state highway engineer of New Jersey, and assistant to General Goethals in supervising the work of construction of the Panama canal, will give an illustrated lecture on highway construction and will discuss the proposed Delaware river bridge.

Field Representative McDowell, of the State Highway Department, will outline the department's 1921 program. The meeting will be preceded by a band concert at 7.30 and will be featured by musical numbers by prominent soloists. The meeting will be concluded by an automobile photoplay.

Trailing Arbutus in Jersey

Newfield, N. J., Jan. 6.—Trailing arbutus has been found in bloom in the woodlands in some sections of South Jersey, according to parties of young people who have been out on hikes.

**The Helene**

We picture for the first time a new and most exclusive pump, originally designed for Miss Eley—

*A foot with Fashion*

Miss Helen Eley, a Co-Star of Sinbad

**Good-bye, Winter!**

MAYBE you're packing your trunks for a flight to Palm Beach, and tucking in every filmy thing you can find... if you are, Vogue shows just the things you need and tells you where to get them.

But no matter whether you have a rendezvous with summer now or later on, you'll want to know the trend of fashion in summer frocks—that swish, dimity, linsens are favored—that certain colors are especially good.

You'll want to buy these fabrics while they're crisp and fresh—and here! You'll want to be ready for the little dressmaker that so many smart women employ on tub frocks in February. And—all the advance information you'll need is in

**The MOTOR and SOUTHERN number of VOGUE**  
Dated January 15th

As for hats! Their lines are simple, but their trimmings are as gorgeous as a Willy Pogany stage setting. Wreaths of orange blossoms and kumquats and black grapes. Scarlet parrot tails spreading across an orange brim. Scarlet calla lilies! And, to wear with them, fabrics of such pleasant shades as tangerine, maize, lemon, raspberry designed in tub frocks by Helen Dryden. Then there are new and gay sweaters, tweeds and homespuns in tropical hues; and, as you can guess from the name of this number, all the latest motor news of the New York Salon and sketches of the aristocrats and patricians among the new cars,—foreign and American—described in language that any woman can understand, whether she knows a transmission from a carburetor or not.

Madam, your Motor Number waits!  
Send to the news stand now!
